Message From HEAD OF OPERATIONS & RECRUITMENT

Dear Parents and Students,

It is with great pride and joy that I reflect upon the remarkable achievements and creativity displayed by the students of Meritorious International School during the 2024-2025 academic year. Their thoughtful expression and imaginative endeavours have been prominently showcased.

Our students have devoted significant effort to their academic pursuits and projects, whether through written articles, artistic pursuits, or digital design. Their creativity serves as a powerful reminder of the importance of self-expression and the nurturing of individual voices at a young age. Each contribution featured in the school magazine, Koshish-e-Peham, is a masterpiece. It tells a story of curiosity and commitment, collectively forming a vibrant mosaic that embodies the spirit of our institution.

This accomplishment would not have been possible without the unwavering dedication of our Headmistress and teachers. Their guidance, passion, and encouragement have established a strong foundation for students to explore, take risks, and develop their unique styles. Our heartfelt gratitude to them for serving as both mentors and motivators; their influence extends well beyond the confines of the classroom.

I would also like to express my appreciation to our parent community. Your support—whether through attendance at school events, encouragement of creative projects at home, or simply inquiring about your child's daily school activities—plays a crucial role in fostering confidence and enthusiasm in your children. Thank you for entrusting us with the esteemed privilege of shaping the minds of tomorrow.

Congratulations to our students! Please continue to nurture your creative skills.

Happy Reading!

**With kind regards,
Huma Arshad
Head of Operations & Recruitment**

Message From The Head Mistress's Desk

Dear Students, Parents, and Esteemed Members of the Meritorious Family,

As I pen down this message for Koshish-e-Peham, my heart is filled with pride, gratitude, and admiration for the journey we've shared this past year. It has been a year marked not only by academic achievements, but also by moments of joy, creativity, resilience, and togetherness. Each student's progress, each teacher's dedication, and each parent's unwavering support has been a thread in the vibrant fabric of our school community. Together, we have created an environment where learning is meaningful, values are lived, and every child is nurtured to thrive.

The academic year 2024–2025 has been a truly remarkable one—rich with opportunities for learning, growth, and transformation. From our youngest learners to our senior students, every member of our school community has taken strides not just in academics, but in character, creativity, collaboration, and curiosity. This year was not just about lessons from books—it was about life itself. It was about developing empathy through community projects, discovering talents on stage and sports fields, asking meaningful questions in classrooms, and building confidence that echoes far beyond the school walls.

Koshish-e-Peham is more than a collection of student work; it is a reflection of the Meritorious spirit in action. Each page tells a story—of exploration, imagination, resilience, and dedication. Whether it's the heartfelt poems, thought-provoking essays, vibrant artwork, or vivid snapshots of our school events, this magazine stands as a testament to the holistic education we deeply believe in. It is the voice of our students, the vision of our educators, and the vitality of our school culture.

As we turn the pages of this edition, we are reminded of how far we have come—and also, how much more awaits us. The coming year promises new learning pathways, exciting innovations in our classrooms, deeper community engagement, and a renewed focus on nurturing global citizens who lead with purpose and compassion. Let us continue our journey with the same Koshish-e-Peham—the continuous striving that uplifts, inspires, and transforms.

With best wishes and unshakable faith in what lies ahead,

Natasha Salim
Headmistress
Meritorious International School

From the Editor-in-Chief's Desk

Koshish-e-Peham | E-Magazine Edition 2024–2025

Every year, Koshish-e-Peham evolves—just as our students do. And this year's edition, now proudly presented as an e-magazine, is a celebration of that very evolution: of thought, talent, and creative courage. At Meritorious International School, we believe that each child holds a world of ideas waiting to be explored, and this publication is living proof of that belief.

This issue is filled with the voices of young dreamers and doers—students who observe the world around them with curiosity, respond to it with originality, and express themselves with passion. From poetry and stories to essays and artwork, every page reflects the enthusiasm, insight, and growing confidence of the minds we nurture every day.

Koshish-e-Peham—meaning “Persistent Effort”—is more than a title. It's a mindset. A reminder that creativity flourishes when we stay committed to growth, no matter how small the steps. As the Editor-in-Chief, curating this journey has been a deeply fulfilling experience—not just as an academic in-charge, but as a lifelong learner inspired by the brilliance of young minds.

With every edition, I've learned something new—about creativity, resilience, and the joy of letting ideas take flight. May this digital edition inspire you, spark conversations, and reflect the true spirit of what our students can achieve when given a platform to shine.

Happy reading!

KINDER GARTEN

GRADE 1

MY SCHOOL

My school's name is Meritorious International School. It is big and has many classes.

Every morning I feel excited to come to school. My teacher is very nice and helps us to learn easily.

My school is like a big family. It organizes many events like 14th August, Milad, Sports Day and Picnic.

Meritorious International is full of rules but it makes us a good person.

Abu Bakr 1A

FUNNY JOKES

What does a house wear?

Ad-dress.

What creature is smarter than a talking parrot?

A spelling bee.

What kind of room has no doors or windows?

Mushroom.

What sometimes freezes after it has been heated up?

A computer.

MUHAMMAD ANAS 1B

Why did the cookie go to the doctor?

It was feeling crumby.

Why did the golfer wear two pairs of pants?

Incase he got a hole in one.

**MUHAMMAD BILAL
1B**

FUN FACTS

Koalas sleep up to 22 hours a day

Bees can recognize human faces

AZAAN NISAR 1B

Butterflies taste with their feet

Octopuses have 3 hearts and 9 brains

AYESHA SOHAIL 1B

ANIMALS AT THE ZOO (POEM)

The monkey jumped from tree to tree.

While having bananas wild and free.

I saw a lion big and strong.

His loud roar didn't look like a song.

At the zoo there is so much to see.

It is a happy place for you and me.

SHIFA SAAD FATTEH 1B

MY SPECIAL SCHOOL DAYS

Monday we do numbers
Tuesday we learn to spell,
Wednesday we paint pictures
Thursday stories we tell,

In our school computer lab I learn to type my name,
In music class we clap and sing,
No two days are the same

Our principal is smiling
When walking down the hall,
The guard uncle waves hello
He's friendly to us all,

Library has so many books
Where magic comes alive,

I'm happy at Meritorious
Where dreams can learn to fly!

Arzam Taufiq Damani 1A

RIDDLES

I'm tall when I'm young, and I'm short when
I'm old. What am I?

I have keys but open no locks. What am I?

What has hands but can't clap?

I fly without wings. I cry without eyes. Wherev-er I go,
darkness flies. What am I?

I'm not alive, but I grow; I don't have lungs,
but I need air; I don't have a mouth, but water
kills me. What am I?

What is orange and sounds like a parrot?

Answers

A Candle

A Piano

JUST PHYSICAL AND MENTAL HEALTH
ADVENTURE ACTIVITIES

My school Meritorious International, organized a one day trip to AQUATIC ADVENTURE LAND. My friends and I played, explored and created memories. My favourite activity was water sliding. I enjoyed a lot there. My teacher served a yummy burger for us. For me, it was a very memorable activity.

Ahmed Siddiqui 2A

ICE CREAM SHOP

Ice cream is a very tasty food. It is so cold, sweet and creamy. It comes in different flavours. Ice-cream makes me feel happy.
Thankyou!

Ajwah Rizwan 2B

MY SCHOOL

My school is very big and it is very fun. I have so many friends in my school. We enjoy a lot and play together. We learn these subjects at school: Math, Science, English, music, tennis, and Urdu. In the school, there are so many teachers. They teach us everything and make us smart and intelligent. I have a lot of fun at my school.

Arwa Fatima 2B

MY FAVOURITE FRUIT MANGO

My favourite fruit is mango. It is yellow in colour. It is also known as the king of all fruits. It comes in summer season. I like mango milkshake.

Mahaveer Makhija 2C

FIELD TRIP

I went on a field trip with my school to a water park. I had a lot of fun with my friends and we ate a burger and fries. Later we went back to school in the bus, and then home

Qamber Masti Khan 2A

CLEANING MY HOUSE

Today I am cleaning house. My mother and my sister helped me clean the house. I cleaned my brother and my sister's room and then I cleaned the kitchen. I also cleaned the fans. I love to clean my house. My house is so clean.

Daniya 2A

HOPE FOR THE BEST

Having a positive outlook means always trying to look at the positive side of any situation even if it is scary.

1. Stepping outside of your daily routine to help someone can give you a nice feeling.

2. The simple act of smiling even if you don't have anything to smile about can change the way you feel.

3. Write positive messages like "life is all about being happy." Take a risk! You have the power within you to move mountains.

Zubia Aman 2B

MY FAVOURITE GAME

Hello friends! My name is Huzaifa. Today I'm going to teach you about my favourite game. Are You Ready? So my favourite game is MINECRAFT. In that we have three hearts. If we go in the water we will die! In that game there are zombies, ghosts, animals and many types of blocks. We can build any house we want in it. We have furniture also. We can drag the circle to move the person in it.

Huzaifa M. Asad 2B

FIELD TRIP

We went to the field trip on a Tuesday in November. First we got in the bus from our school and went to adventure land. We had a lot of fun there. We went on water slides, tunnel slides and much more. We ate burger and fries and then we packed our stuff. We went down the staircase and got on our bus and went back to school.

Syeda Sarah Asad 2A

ABOUT FLOWERS

This is a rose flower. It is mainly red in colour, it is the most beautiful flower among all flowers. It smells very good. The rose is seen as a sign of harmony and balance. All of the roses are edible.

This is a tulip flower. It is mainly pink or red in colour. Tulip petals are also edible. It blooms in cold temperature. Once it was so much expensive it was worth up to the price of diamonds.

This is a waterlily flower. It is in white, cream, pink, yellow, red, orange, purple or blue in colour. It grows in water. These plants are found in fresh, still water throughout the warm regions. It has 70 species. This is a champa flower. It is in white pink, yellow or other colors. Its trees can grow up to 30 feet. It is grown in colder climates. It is also used in oils. The scent of champa flower is sweet.

S. M. Faaiz 2A

A DAY AT GRANDPARENTS' HOUSE

My family went to my grandparents' house on Sunday morning. We met our grandparents and cousins. My grandmother made delicious pasta for us. Then we played some games: chess carom, ludo and snakes and ladders. After lots of fun and entertainment it was time for dinner.

Aarib Adnan 2C

MY FAVOURITE CHARACTER

My favourite character is Sukuna, and he is the strongest sorcerer in all of history. Sukuna killed Gojo, but everyone says Yuji can kill Sukuna easily. However, Yuji cannot stand against Sukuna like that. Sukuna is on a godly level. He also killed Kashimo. Gojo, and his students

Owais khan 2C

VISIT TO ADVENTURE LAND

We went to Adventure Land on 19th December. There were lots of slides over there. The slides were very fast.

We enjoyed a lot over there. We went on water slides, tunnel slides and ate crispy chicken burger. We had a lot of fun and entertainment then we came back to School.

Aarib Adnan 2C

MY BEST FRIENDS

I have two best friends.

Their names are Moosa and Ali

They are my school friends.

Every day we sit together at lunch

When we go out for

tennis and taekwondo

we play together.

**M.Arham
2C**

ALL ABOUT ME

My favourite book is Sinbad.

My favourite place is Turkey.

My favourite fun place is

adventure land at Northwalk

mall. My birthday

comes in August.

My favourite

teacher is Miss Fatima

My favourite friend is

Abeer. I love to play

tennis. My favourite

subject is art.

My school name

is Meritorious.

**Bareera Abdul Wahid
2C**

MY BIRTHDAY PARTY

I was born on 25th July 2017.

Last year I turned seven years old.

I celebrated my birthday party

at my house.

I invited all my cousins
and friends.

We even managed

to hang up some

balloons and

streamers. I

got lots of presents.

I had a chocolate cake.

It was covered with

vanilla frosting.

Emaan Sohail 2C

ICE CREAM SHOP

It is an ice cream shop.
It is in a yummy and tasty place. I went to the Ice cream shop and saw a very beautiful painting. I went to the ice cream shop on Tuesday, 29.10.24 at 8 o'clock and the shop was open.

Zubia Awan 2B

THANK YOU NOTE TO OUR MERITORIOUS TEACHERS

Dear Teachers,

I want to take a moment to say a big thank you for all the hard work and dedication, It means so much to us.

You inspire us to dream big, work hard, and believe in ourselves. We are grateful for the knowledge you share, the encouragement you give, and the kindness you show every day. You make a difference in our lives and we will always cherish your efforts.

Thank you for believing in us and helping us grow into better individuals
With love & gratitude.

M. Husnain A. Waahid 2C

DIARY OF A WIMPY KID

Author: Jeff Kinney

I recently read a series written by the author Jeff Kinney. The series name is "Diary of a Wimpy Kid." The story is about, Greg Heffley, a 12 year old middle schooler who writes about his hilarious life. I have read 9 books of the series. The series has a total of 19 books. My favourite book of the series is

"The Getaway." I like this series because it gave me a hearty good laugh. The illustrations are also very interesting. I hope others like this series as much as I do.

Emaan Sohail 2C

I WONDER

I wonder why the grass is green,
And why the wind is never seen?
Who taught the birds to build a nest?
And told the trees to take a rest?
Oh, when the moon is not quite round,
Where can the missing bit be found?
Who lights the stars when they blow out,
And makes the lightning flash about?
Who paints the rainbow in the sky?
And hangs the fluffy clouds so high?
Why is it now that you suppose,
That dad won't tell me if he knows?

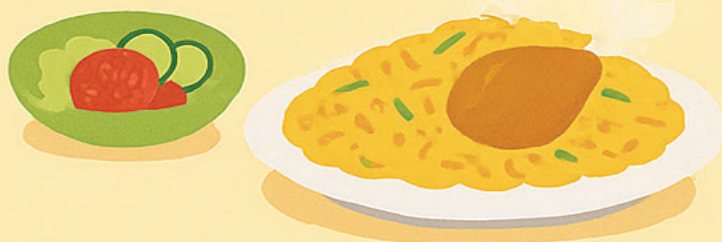

Ajwah Rizwan 2B

BIRYANI

Sunday is biryani day
Beef biryani, mutton biryani
Chola biryani, peas' biryani
I like only chicken biryani
Spicy biryani, tasty biryani
Hot, hot, hot biryani
I like salad with biryani
Lunch biryani, dinner biryani

Shahmeer Siddique 2C

RIDDLES

- 1) I am on a table. I give off light. What am I?
- 2) I have feathers. I chirp. What am I?
- 3) I am in a kitchen. I keep things cold. What am I?

Answers:

- 1) lamp 2) bird 3) fridge

Mohd. Ahmed Siddiqui 2A

- 1) I am a colour but you can eat me. What am I?
- 2) You are my brother but I am not yours. Who am I?
- 3) Jimmy's father has four sons: Monday, Tuesday, Wednesday, and _____?
- 4) If I drink I die, if I eat I grow. What am I?
- 5) I'm tall when I'm young and I'm short when I'm old. What am I?
- 6) What is at the end of a rainbow?
- 7) How many months have 28 days?
- 8) I'm a building with the most stories. What am I?

Answers:

- 1) orange 2) sister 3) Jimmy 4) fire 5) candle 6) the letter 'w' 7) all the months 8) library

S. M. Faiz 2A

RIDDLES

- 1) Why was the equal sign so humble?
Because he wasn't greater than any one.
- 2) What time is it when the clock strikes 13?
- 3) Why did the kid bring a ladder to school? Because she wanted to go to high school.
- 4) Where would you find an elephant?
The same place you lost her.
- 5) How do you get a squirrel to like you?
Act like a nut.
- 6) How do we know that the ocean is friendly?
It waves.
- 7) What animal is always at a baseball game?
A bat
- 8) What kind of tree fits in your hand?
Palm tree
- 9) What kind of water can't freeze?
Hot water
- 10) What did the left eye say to the other?
Between us something smells.

Syed Muhammad Mujtaba 2B

MY FAVORITE ICE CREAM

My favorite ice cream is Kaybee's Mango flavor ice cream cone. It's creamy and soft in texture. It is made up of real fresh mango chunks and pulp.

I use to go every other day to enjoy mouthwatering mango ice cream cone. It is my favorite outing in mango season. Everyone should at least try it. You will enjoy every bite of it!

GRADE 3

RIDDLES

1. I am full of holes, yet I can hold water. What am I?

Ans: Sponge

2. What gets wet while drying?

Ans: Towel

3. What can't be used until it is broken?

Ans: Egg

4. The more you take away, the larger it becomes. What is it?

Ans: Hole

5. What has many keys but can't open any door?

Ans: Piano

Huda Binte Amir 3B

MY SCHOOL PICNIC

Our school organized an annual picnic for Class 3 at Aquatic Adventure Land. It was a water park. We reached there by school bus at 9 o'clock. All the students were very excited. There were colorful slides and pools.

I changed my clothes and enjoyed the water slides and pool. After hours of playing, we had lunch. I ate pizza and biryani. The food was very tasty. Later, we rested under a shady area, then we played football.

We returned back home in the afternoon. It was a memorable trip. We had so much fun!

Abdullah Imran 3B

TONGUE TWISTERS

She sees cheese.

She sells Sea Shells.

Black back bat.

Unique New York.

Six Sticky skeletons.

Jaisha Furaja 3C

MY GARDEN

My garden is my favorite place in our house. It is small but very beautiful. There are many plants and flowers in my garden. I love spending time there every day!

In my garden, we have roses, sunflowers, marigolds, and dahlias. They bloom in bright colors like red, yellow, pink, and orange. There is a mango tree that gives sweet fruit. It is a stunner! I have also planted some vegetables, like tomatoes and spinach.

Every morning, I water the plants with my mother. I also remove weeds and make sure the soil is clean. Sometimes, butterflies and bees visit my flowers, and birds like doves and pigeons sit on the branches of the tree.

My garden makes me very happy. I like to sit there and enjoy the fresh air. It is a peaceful and beautiful place. Taking care of my garden teaches me to love nature. I feel proud of my garden because it is a special place that I helped create.

I love my garden!

Essa Raza 3C

RIDDLES

1. What has four legs but can't walk?

Answer: A table

2. What is always coming but never arrives?

Answer: Tomorrow

3. What has keys but can't open locks?

Answer: A keyboard

4. What gets wet while drying?

Answer: A towel

5. What month of the year has 28 days?

Answer: All of them

Aafreen Raheel
3D

FUN FACT

- The Sun is actually a star.
- Goldfish can't close their eyes because they don't have eyelids,
- Snakes smell with their tongues, which is why their tongues are always flicking out.
- Our heart never mixes the two types of blood, but it still keeps working efficiently.
- The Moon doesn't have its own light, it shines by reflecting sunlight.
- Dolphins sleep with one eye open.

Muhammad Umer 3D

TRIP TO AQUATIC ADVENTURE LAND

Hurray! I was very excited on 21st November 2024. Why? Because it was our field trip with our school teachers and friends!

We all gathered at Meritorious High School, where our teachers were waiting for us. Then, we sat on our buses class-wise.

When we reached Aquatic Adventure Land, all of us were happy and calm. With great thrill and excitement, we dived into the water. We went on slides with our friends and enjoyed a lot!

After the water activities, we ate our lunch, which was served by the school. It was a joyful experience with our friends and teachers.

Muhammad Umer 3D

MERITORIOUS: MY PRESTIGE

When I appeared for the admission test at Meritorious MELC School, I passed! I was really excited because Meritorious is a great school network.

I joined Meritorious MELC School in Class 1. Every day, I enjoyed learning and having fun at Meritorious MELC. Our principal's name was Madam Mahjabeen. Now, I am in Meritorious International Campus, where our principal's name is Madam Natasha. I really enjoy being part of this campus too.

Meritorious school management organizes many events, like Annual Race Day, Annual Drama, and various school activities. They also arrange field trips. Meritorious is the best option in Karachi, providing an amazing education system!

Minahil Hussain 3B

RIDDLES

I am not alive, but I have five fingers. Who am I?
A glove.

How can you boil oil?
By adding 'B' to oil (Boil).

What month of the year has 28 days?
All months.

I have no life, but I can die. What am I?
A battery.

What begins with 'T', ends with 'T', and has 'T' in it?
A teapot.

I have no eyes, but I can cry. I have no wings, but I
can fly. What am I?
A cloud.

Khuzaima Furqan 3B

A NEW CONTINENT

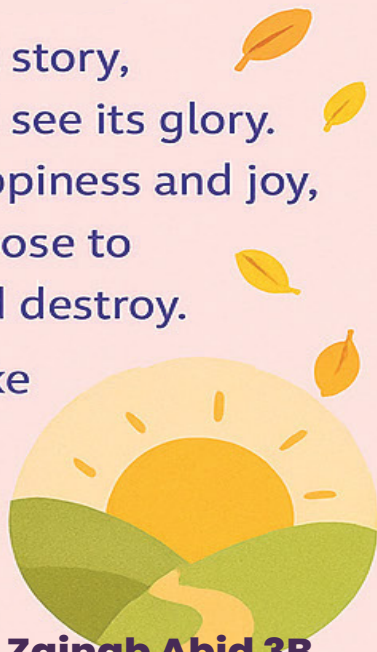

Imagine there was a new continent on Earth,
To add a new one should be worth.
A continent where we could live peacefully,
Where love would serve, and people would thrive.
But I don't want them to act with pride,
Or let hatred divide.
I don't want people to harm any creation,
And there should be no devastation.
A place where everyone is humble and kind,
Always remember this in your mind.
Everyone follows rules,
And doesn't act like stubborn mules.

Zainab Abid 3B

LIFE

Life is a short story,
Everyone will see its glory.
It's full of happiness and joy,
Yet some choose to
complain and destroy.

We must make
the most of
our days,
Before time
silently slips
away.

Zainab Abid 3B

POETRY STAR

Stars are countless,
But they are not useless.
They shine so bright,
Giving us light.

They are a part
of nature's art,
And forever
remain in
our hearts.

Zainab Abid 3B

IT'S TIME

The world is silent,
People are violent.
All their dreams
Have melted like ice
cream.
Out comes the storm
from Palestine,

The result of Benjamin's crime.
They are running out of time.
We are cowards, hiding in bed,
While Palestine is left in distress.

Fight for justice, fight for peace,
Fight for those olive trees.

We have to stand together,
We have to stay strong.

Save Palestine

Zainab Abid 3B

FUNNY FOOD POEM

A poem's a chunk of chocolate,
You nibble at your leisure.

A merry berry scrap of time,
A popsicle of pleasure.

A poem's a photograph at ease,
That captures scraps of truth,
Which isn't quite the same as fact,
As age is not quite youth.

A poem is just a fragment,
That is gifted to a pen,
That dips in ink and writes
it down,
And fills back up again.

Zainab Abid 3B

THE UGLY TREE

A long time ago, a forest was filled with straight and beautiful trees. But in that forest, there was one lonely tree whose trunk was hunched and bent. Its branches were also twisted.

The other trees teased and made fun of this tree, calling it a "hunchback." This made the tree very sad. Whenever it looked at the other trees, it sighed, "I wish I were like the other beautiful trees. God has been cruel to me."

One day, a woodcutter came to the forest. He saw the hunchback tree and grumbled, "This twisted tree is useless to me." Then, he cut down all the straight and smooth trees.

Moral: Looks can be deceptive.

Simra Sohail 3B

FUN FACTS ABOUT FLOWERS & FRUITS

1. Orchids always look very fresh, but it can live for so long with very less maintenance
2. Fossil is an oldest flower which is around 125 million years old discovered in China
3. Sunflowers always turn their head towards sun through a scientific process called heliotropism
4. Tulips which are very common flower these days, during 17th century they were very valuable in Netherlands that their bulbs were sold for more than a price of house.
5. Banana is not a fruit, it's a berry as it grows from a flower
6. Watermelons are made up of 92% of water that's why we find it very refreshing in summer months
7. Strawberries are one kind of berries which has seeds outside instead of inside like all other berries.
8. Everyone loves to eat avocado but let me tell it is not a fruit, it's a Vegetable
9. Yubari King is the most expensive fruit which can be found in Japan for \$30,000 for a pair of melons
10. Apples can float on the water as they are made up to 25% of air

Aiza Ayaz 3C

THE WISE BIRD

This story is about a bird and a hunter. Once upon a time a small bird was enjoying the sunny day in a garden, when suddenly one hunter came and catch the bird by the motive to cook and eat the bird in dinner. When the bird was trapped in hunters net, she tries very hard to get away but couldn't compete with hunter's strength. Suddenly the bird called hunter and told him that I am very small that you can't even have your one full meal, instead if you let me free so I will give you three advices which will be helpful for your entire life. One I will give on your hand, next on the roof of house and last on the tree. Hunter thought for a moment that bird is right, she is very small that he cant get anything from bird's meat. So he decided to free the bird.

Bird was very happy and gave first advice that never cry on spilled milk, if something has happened and you cant change it then don't regret on that. Hunter was happy to hear that and released the bird as promised. Bird quickly went from hunter's hand to top of the house where she gave the next advice that don't believe anything which doesn't make any sense. Hunter once again nodded his head and liked the advice, also promised to follow these advices as well.

This story is about a bird and a hunter. Once upon a time a small bird was enjoying the sunny day in Just before flying to the tree for the final advice, bird confessed to the hunter that she is carrying a very rare kind of 10 pounds diamond in her stomach which is worth thousands of dollars. As soon as hunter listen to this, he was sad and start crying that he has done the biggest mistake of life by freeing this bird. He could have be a rich man if he did not listened to the bird. As the hunter was in shock, bird called him and said how can you imagine that I can carry such a heavy diamond when I am hardly 2 to 3 pounds!!! Hunter once again cherish and thought that bird is right and she was joking with me.

Bird continued that you haven't followed my advices as you believe on my story which was not making any sense and if I had that diamond so you won't be able to get that so you should not regret as per my first advice as well. Hunter said yes I ignored your advices but now I will follow in my life, its time for your third advice. Bird in return said that when you don't follow my 2 advices then I shall not waste my third advice on you and flew away

Moral:

This story tells us that we should always use our mind despite how difficult time we face, always there is a way out just like small bird save her life. Also we should adapt the bird's advice in our lives.

MOVIE REVIEW: INSIDE OUT 2

Inside out 2 is an interesting sequel which take as back to Riley's mind as she faces the challenges of being a teenager. Her emotions - Joy, Sadness, Anger, Fear and Disgust are joined by new feelings to help her through school, friendship and growing up. The movie is filled with exciting and colorful animation and funny moments.

The movie shows how Riley learns to accept all her emotions even the tough once and that it's okay to feel every emotion. This movie teaches us the importance of acceptance and understanding of our feelings

THE USE OF AI AND CHATGPT

Once I was preparing for my HRCA science quiz. All of sudden, a questions stuck in my mind "Plants can breathe but how?".

Seeing my frustration my mom said; "Why don't you ask from chat GPT", while opening her laptop.

"What is chat GPT", I asked

"Chat GPT is an AI tool that can respond anything in a second"; mom replied as she types my question on chat GPT.

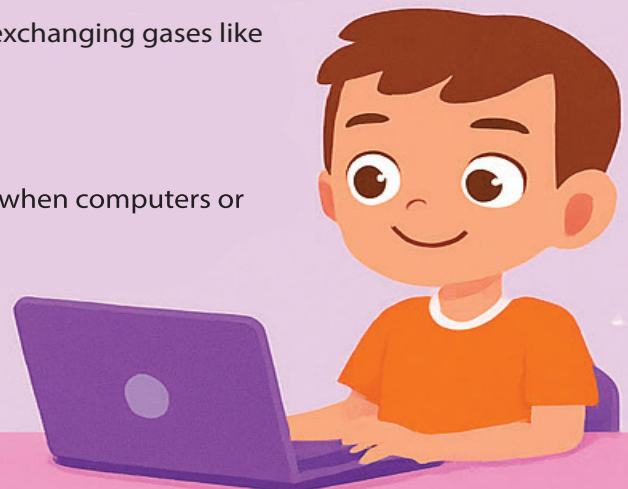

In seconds, chat GPT answers "Plants breathe through stomata, exchanging gases like oxygen and carbon dioxide".

"Wow it's a magic", I exclaimed.

Mom replied "No, it's not a magic. It is Artificial Intelligence. AI is when computers or machines are made to think and learn like humans".

Over the week, chat GPT became my study buddy.

But my mom also teaches me that chat GPT is a helper, not the replacement of books and teachers. So always double check the answers because AI can make mistakes.

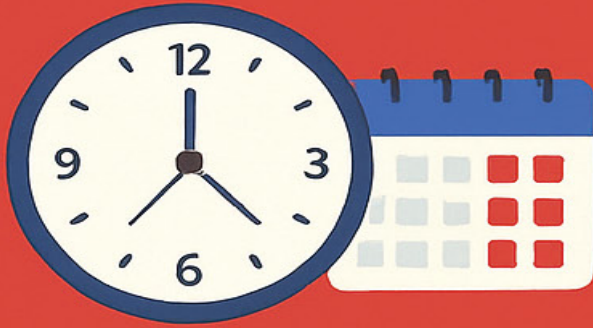

GRADE 4

THE IMPORTANCE OF TIME

Time is one of the most valuable resources we have. It is something we can never get back once it is gone, making it important to use wisely. Managing time well helps us stay organized, achieve our goals, and make the most of our lives.

Using time wisely allows us to complete tasks on time, avoid stress, and have more opportunities. It also helps us balance work, play, and rest.

Time is a gift, and we should respect it by not wasting it. The saying "Time and tide wait for no one" reminds us to value every moment and make the most of each day.

Marium A. Wahid 4D

FUN FACTS

1. Butterflies taste with their feet! They have tiny sensors on their feet that help them detect the sweetness or bitterness of a substance.

2. Flamingos are born grey! They turn pink after eating shrimp and other foods containing a pigment called Astaxanthin.

3. Chameleons can move their eyes independently! They can look in different directions at the same time.

Haider Ali 4D

MIND-BOGGLING SCIENCE FACTS FOR CHILDREN

The Earth, the Moon, and the Sun are around four to five billion years old.

We cut down around 27,000 trees every day to make toilet paper.

Octopuses have three hearts.

The oldest living tree in the world is in California and is around 4,843 years old.

Rameen Faisal 4B

14 AUGUST – INDEPENDENCE DAY

14th August is an important day for all of us. It is a significant day in Pakistan's history, celebrated annually to mark the country's independence from British rule in 1947.

Under the leadership of Quaid-e-Azam Muhammad Ali Jinnah, Pakistan emerged as a separate nation for Muslims. This day reminds us of the sacrifices made by our ancestors for freedom.

People celebrate Independence Day with flag hoisting, parades, and patriotic songs.

I love Pakistan!

Safia Ayaz 4B

THE BRAVE LITTLE ANT

Once upon a time, in a small green meadow, there lived a little ant named Annie. She was smaller than the other ants, but she had a big heart and was always eager to help.

One sunny morning, Annie and her friends went out to collect food for the winter. While they were busy picking seeds, Annie heard a loud chirping sound. She turned around and saw a tiny grasshopper trapped under a fallen leaf.

"Help! Someone, please help me!" cried the grasshopper. Annie quickly ran to her friends and said, "We must help the grasshopper!"

The other ants looked at the big leaf and said, "It's too heavy for us. We can't do it." But Annie didn't give up. She said, "If we all work together, we can move it!"

The ants decided to try. They all pushed the leaf together with all their strength. Slowly but surely, the leaf began to move, and soon, the grasshopper was free!

"Thank you, little ant," said the grasshopper. "You're very brave and kind!"

Annie smiled and said, "We are all stronger when we work as a team."

From that day on, Annie became a hero in the meadow. All the animals admired her for her courage and teamwork.

The moral of the story is: "No matter how small you are, you can do big things if you believe in yourself and work together with others."

INDEPENDENCE DAY CELEBRATION

August 14th is the day of our independence. It marks the birth of Pakistan, and we celebrate it by decorating our houses, banks, and buildings with flags and lights. The celebrations begin with a salute and the firing of guns.

On the 14th of August, we have a function at school where we perform plays, and after that, the teachers also perform on stage. After a little while, a magician comes on stage and shows us magic tricks. Last time, the celebrations were similar to previous years, but they were even more fun. We all enjoyed it because there were no studies, which was the main reason everyone looked forward to it.

After school, I came home, and since it was Independence Day, there were balloons waiting for me in the dining room. I thought it would be a boring day, but at night, we went out for dinner. On our way back, we watched the beautiful lights decorating the city.

It was a really fun and exciting day, and I'm sure everyone had a great Independence Day. I hope next year's celebration will be just as amazing—I can't wait to see it!

MY UMRAH STORY

My Umrah journey started a year ago during Ramadan. One day, I told my parents that I wanted to go for Umrah with my family during Ramadan. However, they said it was not possible, and I felt very sad. But the next day, they told me that we would be going for Umrah on the 15th of Ramadan! I was so happy.

On the 15th of Ramadan, I woke up at 5 AM and prepared for my flight. My uncle dropped me off at the airport, and I boarded my flight. After a few hours, I landed safely, filled with excitement and gratitude.

Hamza Shakir 4B

SPORTS

Sports and games are of great value. It is well said that a sound mind lives in a sound body. Sports keep us physically fit and mentally alert. A weak and sick body cannot play games properly.

In sports, we learn discipline by following rules and regulations. They also teach us team spirit, as every player helps and supports their teammates. Success in life often depends on teamwork and cooperation.

In games, players follow their captain, which teaches them the quality of obedience to their superiors. Sports play a key role in shaping discipline, teamwork, and leadership skills.

Anabia Abid 4B

MY SCHOOL PROMISE

Each day, I'll do my best,
And I won't do any less.
My work will always please me,
I'll accept nothing but my best.

I'll color very carefully,
Write neatly with my pen,
And I won't be happy
Until my work is complete.

I'll always do my homework,
And try my best on every test.
I won't forget my promise—
To always do my very best!

Radhika 4B

TECHNOLOGY

Technology has revolutionized the world, transforming the way we live, work, and communicate.

1. It has made our lives easier, faster, and more convenient.

2. The internet, mobile devices, and social media have connected people globally, facilitating instant communication and information sharing, while digital payments have made transactions seamless.

3. Technology has also transformed industries like healthcare, education, and transportation. However, it also has its drawbacks—cybersecurity threats, data breaches, and social media addiction are major concerns.

4. In conclusion, technology is a double-edged sword. While it offers numerous benefits, it also presents challenges.

Hitesh 4B

THE LION AND THE COWS

Once upon a time, four cows lived in a forest. Every day, they would graze together in a particular spot. They were all friends.

One day, a lion saw the cows grazing together. He wanted to catch them, so he tried to attack. However, when the cows saw him, they all fought back together, and the lion had to run away.

A few days passed, and the cows quarreled among themselves. They stopped grazing together and started wandering separately. One by one, the lion attacked and killed them all.

Moral of the Story: Unity is Strength

Hudabiya Shahzad 4D

A GOAT AND A DONKEY

A goat and a donkey lived on the same farm. The goat had to find his own food, but the donkey was fed by the farmer because he worked hard.

The goat became jealous, forgetting all the donkey's hard work. He thought that if the donkey stopped working, he would get the donkey's food. So, he dug a large hole and pushed the donkey into it, badly hurting him.

The farmer called a vet, who examined the donkey and said, "The quickest way to make him better is to feed him with goat soup."

Instead of getting the donkey's food for himself, the goat ended up as food for the donkey.

Safiya Maqbool 4D

THE VILLAGE BLAST

Once upon a time, there was a village near a forest. In that village, a blind man sat by the roadside with a sign that said, "Please help me. I am blind." The people in the village would sometimes give him gold coins, while others ignored him.

One day, a boy named Heeko, who was known for his greed, wanted to climb the highest mountain. He had robbed many people and stolen a huge bomb that nobody wanted because it was too dangerous. Heeko wanted to set off the bomb at the top of the mountain.

When he finally got \$100,000, he said, "Now I can finally explode the bomb! Hahaha!" He started climbing the mountain, carrying the bomb with him.

After a long and difficult climb, he reached the top. He pressed the button, and the bomb exploded with a massive blast. Unfortunately, Heeko did not survive.

Javeria Zubaii 4D

A WALK IN A JUNGLE

Last Sunday, I went on a jungle walk with my father. The tall trees, fresh air, and chirping of birds made it feel like a magical world. Sunlight filtered through the leaves, and the jungle was full of life.

I saw monkeys swinging in the trees and a parrot with bright green feathers. We stopped by a clear stream, where colorful butterflies fluttered around us. Suddenly, a spotted deer jumped out of the bushes and quickly ran away. It was so exciting!

As we walked further, I noticed strange sounds coming from the jungle. Some sounded like birds, while others were unrecognizable. My father explained that the jungle is always full of hidden creatures like frogs, crickets, and even snakes. The mystery of what was around us made the walk even more interesting.

The jungle was full of beautiful flowers and plants. I didn't want to leave because it felt so peaceful and special. This walk taught me to love and respect nature, and I hope to visit the jungle again soon.

Haris Fattani 4C

THE GOODNESS OF HONEY

Honey is a sweet, sticky, yellowish-brown substance made by bees. The nectar present in flowers is collected by bees as they suck on the nectar of plants. The nectar in flowers is a mixture of water and sugars. Enzymes secreted by the bees, called invertases, convert sucrose (a double sugar) into disaccharide sugars, namely fructose and glucose.

The liquid yield is stored in the beehive, where much of the water content evaporates, leaving only about 18% water, resulting in the thick, sticky texture of honey. The hives are then stripped of their honey and packaged into bottles for our use.

BEWARE OF THOSE AIRBAGS

We have sometimes seen car accidents on television where cars collide with something, causing airbags to inflate. But what causes this inflation?

Airbags are packed and inflated by a chemical reaction involving sodium azide (NaN_3). Sodium azide is a stable molecule at room temperature. However, when heated, it decomposes, yielding nitrogen gas and sodium. It is believed that sodium azide, when decomposed, produces a significant volume of nitrogen gas, which is sufficient to inflate the airbag almost instantly.

Ayesha Kashif 4C

A FUN DAY AT AQUATIC ADVENTURE LAND WITH MY SCHOOL

One of the most exciting experiences I've had with my school was my trip to the Adventure Land. It wasn't just the thrill of the rides or the refreshing water that made the day memorable, it was the chance to share it with my classmates and teachers. That day felt like a perfect blend of adventure, laughter, and teamwork. When the moment arrived, I could see the excitement on every one's face. The sight of towering water slides and sparkling blue pools was enough to make everyone's heart race. Our group was buzzing with energy, and as we entered the park, we quickly split off into smaller groups to explore the different attractions- I went with my best friends, and we couldn't wait to try everything, the water slides were the first stop. There was a huge variety, from the steep high slides to the twisted winding ones in Aquatic Adventure land. One of the most relaxing parts of the day was floating along the crazy rivers. Throughout the entire day, it was clear how much fun everyone was having. By the end of the day, we were all tired but incredibly happy. We gathered back together as a group. In conclusion, my trip to Adventure Land was simply unforgettable.

Ayesha Kashif 4C

SCIENCE AND TECHNOLOGY- LATEST INVENTIONS

Flying cars: Flying cars are no longer just part of the story!

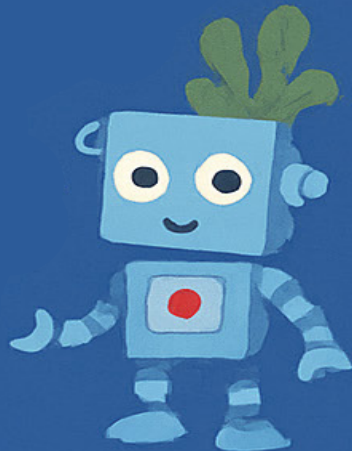

Companies have started testing cars that can fly like small airplanes. These cars could help us avoid traffic jams in the future and make traveling faster.

Small robots: Robots are becoming smarter every day. New robots can help doctors while performing surgeries, clean, and even teach children! These robots are artificial intelligence to understand what humans need and respond quickly.

3D printing: 3D printing has changed the way we create things. By using special machines, we can now print toys, books and even food. Doctors are creating body parts like bones and teeth for their patients.

Why are these inventions important? These inventions are helping in problem solving and make our lives better.

They also inspire young minds like mine and yours to dream big and create even more amazing things in the future.

M. Mustafa 4C

OPEN DAY

Hello, I am Mohammad Sulernen from class IVC. My school is Meritorious International school. Today, I am sharing my most memorable event of MIS is the OPEN HOUSE. It was the best event till now. My mother accompanied me. Later I got to meet my best friend. Then we did lots of activities, played games, spun the wheel, giant snake and ladder, Science Safari, face painting, story telling, plantation, piano playing, bounce house, scrabble, yoga, Paintings and a book stall!! I planted chicks peas, every activity, I planted and brought it home successfully. I guessed almost everything in Science Safari. My teachers were impressed with me. When I spun the wheel. I got lucky to get my very favourite book

My school arranged the event marvelously. Everything was so well organised, delicious refreshments were served. Lemonade was so refreshing that me and my friends were coming again and again. Our school staff was so cooperative and I wish there would be more events like this in the future too.

INFORMATION ABOUT ANTARCTICA, EUROPE AND OCEANIA

Antarctica : Antarctica is the coldest continent in the world, it is in the south place.

Europe: Europe is a continent with many countries, where the smallest one is Vatican City. It's considered the birth place of democracy and Western culture. Thanks to ancient Greece and Rome, Most of Europe has the EURO currency. The tallest mountain is Mount Ellorus in Russia

Oceania: Oceania is a region in the South Pacific Ocean made up of thousands of islands, including Australia and New Zealand, where the biggest country is Australia, and the most famous animals are the kangaroos and kiwis. It is surrounded by water on all sides.

Safir Raza 4B

THE WONDERS OF SCIENCE

Science is a world so bright,
Filling our minds with pure delight.
From the stars up high to the earth below,
It helps us learn, it helps us grow.

Mining potions in a lab so neat
Discovering why rain makes puddles at our feet.
Studying animals, big and small,
Science helps us understand it all!

Why does the sun shine warm and bring bright? How does the moon glow in the night?
What makes plants grow so green and tall? Science has answers to questions big and small!
Electricity, magnets and the speed of lights. Volcanoes that rumble with Fiery might.
The secret of nature, the mysteries untold, Science is a magic that's better than gold!

So let's explore, let's wander, let's try, Ask "how" and "what" and always ask why" for Science is knowledge, a treasure so true,
A path of discovery For me and For you!

Tayyaba Arsalan 4B

MY FAVOURITE SUBJECT

My Favorite Subject is fun to do.
I love to learn and play.

My Favorite subject is Art today.
I paint and color with glee.
Making pictures for you and me.

I learn about shapes and colors too,
Making art is fun to do!

It makes me happy and smile.
Art is my favorite subject all while.

Hassan Aman 4C

MY SCHOOL, MY PRIDE

My School, My pride
Where we have a
wonderful school
ride.

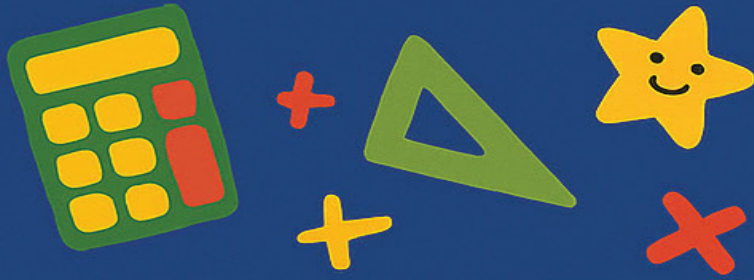

We read we write and make our future bright!

We learn to respect...! Not to neglect,
We laugh, we cry we play, we study with our best best
buddy!

Respect elders, obey parents,
Become sincere and punctual Is the habit we learn---
And that is why we call... My school' My Pride

Arfa Umair 4C

MATHEMATICS IS FUN

Mathematics is a magic key,
Unlocking puzzles for you and me.
With numbers, shapes and patterns to see,
It's all around, as clear as can be!

Add and subtract, make totals grow,
Count the stars or the flowers that glow. Multiply quick, divide
with care,
Math is a game that's always fair!

Circles, triangles, spaces in line,
Geometry makes them all combine.
Fractions and decimals, big and small.
"Math helps us understand it all!"

It's in the clock, it's in the sky.
It helps planes soar and rockets fly.
From measuring time to counting sheep,
Math is a treasure we love to keep!

So grab your pencil, take a chance.
Let's solve problems and do the math dance.
With every sum, a victory won,
Mathematics is learning and it's so much fun!

SAFIA AYZ 4B

I can only dream, of the day
we'll reunite.

I AM LUCKY

If I were a butterfly,
I would be thankful for my wings.

If I were a myna in a tree,
I would be thankful
That I could sing.

If I were a fish in the sea
I would be thank ful
That I can wriggle and giggle with glee.

So, I just think I am lucky to be "me"
Not "you" but "me."

**Rehaam A. Waheed
4A**

Poem

My brother and sister live so far away
In different countries, every single day,
I miss them so much, it hurts my heart
We used to play, laugh and never be a
part
Now I see their pictures, tears fall from
my eye
I wish they were here, to give them a big
surprise
My room feels empty, without them by
my side.
And distance separates us, like a big
ocean wide.

Khawla Nawaz 4A

POEM

The sky is blue,
The calm, serene,
The grass is green,
A peaceful world,
so clouds drift by with gentle grace,
Their Cotton shapes a soft embrace.
The trees stand tall, their loves so bright, swaying softly in the light.

The Flower's bloom in colours bright,
a painter's palette in the light!
The birds above begin to sing,
as morning wake a spreads its wings.

The sun peeks out from far away, to greet the start of a brand new day. The breeze is cool, the air so Sweet,
the earth beneath my wondering feet. in every moment, pure delight this world is full of endless nights.
The stars above, they flicker bright a million sparks in the silent night. The ocean bums a gentle tune, a lullaby beneath the moon.
The waves embrace the shore with love,
the night, a gift from stars above, in this moment, all feels right
bathed in the calm the moonlit

FUN RIDDLES

1. What has keys but can't open locks?
(Ans: Piano)

2. What can travel around the world while staying in a corner?
(Ans: Stamp)

3. What has hands but can't clap?
(Ans: A clock)

4. What can you catch but not throw!
(Ans: A cold)

5. What comes once in a minute, twice in a moment, but never in a thousand years?
(Ans: The letter M)

6. What gets wetter as it dries?
(Ans: A towel)

7. What goes up but never comes down?
(Ans. Your age)

8. What is always in front of you but can't be seen?
(Ans: Your future)

Abeeha Abdullah 4C

RIDDLES

I bought 6 eggs I
broke 2, I cooked 2
eggs and I ate 2
eggs. How many
eggs are left?
(Ans: 4

What gets wet while drying?
(Ans: Towel)

What can't talk but will reply when
spoken to?
(Ans: Echo)

What is black when it's clean and
white when it's dirty?
(Ans: Black board)

ALPHABET RIDDLES

A. I am a letter used as the name of a flying insect that makes a buzzing sound. Guess which letter I am!

B. I am a letter used as the name of a large body of salty water with ships and waves. Who am I?

C. I am a letter used as the name of a part of the body. You can find it on the face. Who am I?

D. I am a letter used as a pronoun when talking to another person. Guess which letter I am!

E. I am a letter used as a question word when asking for a reason. Who am I?

Answers:

A - Bee (B)

B - Sea (C)

C - Eye (I)

D - You (U)

E - Why (Y)

Imra Asif 4B

PANCAKE RECIPE

Ingredients:

1 cup (126g) all-purpose flour
2 tablespoons sugar
1 teaspoon baking powder
½ teaspoon baking soda
½ teaspoon salt
¾ cup (180ml) milk
2 tablespoons melted butter (plus extra for greasing)
1 teaspoon vanilla extract (optional)

Instructions:

1. Mix Dry Ingredients: In a large bowl, whisk together the flour, sugar, baking powder, baking soda, and salt.
2. Mix Wet Ingredients: In another bowl, whisk together the milk, eggs, melted butter, and vanilla extract.
3. Combine: Pour the wet ingredients into the dry ingredients and gently mix until just combined. The batter will be slightly lumpy—do not overmix!
4. Cook the Pancakes: Heat a non-stick pan or griddle over medium heat and lightly grease with butter or cooking spray. Pour about ¼ cup of batter per pancake onto the pan.
5. Flip and Cook: Cook until bubbles form on the surface and the edges look set (about 2 minutes). Flip and cook.

Hareem Shazi
4D

SPICY CHICKEN BURGER RECIPE

Ingredients:

3 cups sifted flour
1 tbsp baking powder
1 tsp garlic powder
1 tsp red chili powder
1½ tsp salt
1 tsp chicken powder
½ tsp paprika powder
¼ tsp black pepper powder
1 tsp onion powder
½ tsp cumin powder
1 tsp garlic powder

Instructions:

1. Prepare the Coating: In a bowl, mix the flour, baking powder, garlic powder, red chili powder, salt, chicken powder, paprika, black pepper, onion powder, cumin powder, and garlic powder.
2. Coat the Chicken: Dip the chicken pieces into the dry mixture, then put them in water briefly before coating them again with the dry mixture.
3. Fry the Chicken: Heat oil over low to medium heat and fry the chicken pieces until golden brown and crispy.
4. Prepare the Sauce: Mix ½ cup mayonnaise with hot sauce to taste.
5. Serve: Enjoy your crispy fried chicken with the sauce!

Mahid Bari 4B

FRUIT CHAAT RECIPE

Ingredients:

Bananas – 4 pcs
Apples – 2 pcs
Guavas – 2 pcs
Kiwi – 2 pcs
Sweet Lime – 1 pc
Honey – 1 tablespoon
Chaat Masala – ½ tablespoon
Salt – ½ tablespoon

Procedure:

Wash the fruits properly before peeling or cutting. Cut the apples, guavas, and sweet lime into small cubes. Slice the bananas. In a large bowl, add all the cut fruits. Sprinkle salt, chaat masala, and honey over the fruits. Mix gently to avoid mashing the bananas. Keep the chaat in the refrigerator and serve chilled. If you prefer, you can also enjoy it at room temperature. For a twist, add a little Rooh Afza syrup or tangy powder for extra flavor.

Your delicious fruit chaat is ready to enjoy!

Rameen Faisal
4B

CAKE

Ingredients:

White flour – 2 cups
Sugar (powdered) – 1 cup
Cocoa powder – 1 tbsp
Baking powder – 1 tsp
Butter – 1 cup
Chocolate essence – 1 tsp
Cold drink (Coca-Cola) – 200 ml
Nuts – as needed

Directions:

Step 1: Sift the white flour, cocoa powder, and baking powder 2 to 3 times to mix them well.

Step 2: In a separate bowl, add sugar and chocolate essence to the butter. Beat the mixture for 2 minutes in one direction only.

Step 3: Gradually add the sifted flour mixture to the butter mixture in small portions. Also, add nuts and the cold drink slowly while mixing.

Step 4: Line a cake pan with butter paper and grease it well. Pour the batter into the pan.

Step 5: Microwave the cake for 5 minutes on high power.

Step 6: Once done, carefully remove the cake from the pan and garnish it with nuts.

Now your delicious cake is ready! Enjoy!

Anabia Abid 4B

HELPING OTHERS

One day a boy named Faizan saw an old man who was trying to cross the road with a bag full of apples. The old man accidentally dropped it. He was trying to collect the apples but he couldn't bend. Faizan saw him struggling, he ran to the old man to help him. He collected all the apples and gave it to the old man. The old man appreciated and blessed him. The boy was feeling very happy and calm to help old man because he knows;

"Allah loves those, who help others!"

SYED MUHAMMAD MUSTAFA 4C

GRADE 5

FUDGE BROWNIES RECIPE

Ingredients:

2 cups powdered sugar
1 cup oil or butter
3 cups flour
3 cups cocoa powder
A few drops of vanilla or chocolate essence, dissolved in 2 tbsp milk
1 cup melted cooking chocolate
A pinch of salt

Instructions:

1. Preheat the oven to 180°C and bake for 20 minutes (or use stove baking).
2. Prepare the pan and set it aside.
3. Beat together sugar, oil/butter, vanilla essence, and chocolate (plus coffee if using).
4. Sift together flour, cocoa powder, and salt.
5. Gradually add dry ingredients to the wet mixture and fold gently. Don't overmix.
6. Pour the mixture into the pan and bake at 150°C for about 20 minutes for a moist, flaky texture. Let them remain soft.

Rehmat Ali Raza 5A

FUN FACTS

Have you ever thought about where oxygen comes from and how we get it? More than half of the Earth's oxygen is produced by oceanic plankton, including phytoplankton, algae, and cyanobacteria.

It may sound surprising, but another fascinating science fact is about acids. The human stomach contains hydrochloric acid, which helps break down food. Acids are classified based on their ability to lower pH levels, and stomach acid has a pH of around 1.5 to 3.5.

Speaking of science facts, did you know that bananas are naturally radioactive? This is due to their potassium-40 content, a naturally occurring isotope that emits small amounts of radiation. However, it's completely harmless to humans.

Manha Bari 5D

INFORMATION ABOUT VASCO DE GAMA

Vasco De Gama was a Portuguese explorer and nobleman, who was the first European to reach India by sea. His initial voyage to India by way of the Cape of the good hope was the first to link Europe and Asia by an ocean route, connecting the Atlantic and the Indian oceans. He was born in Sines, Portugal. He died on December 24, 1524 in Kochi, India. He had five siblings. His parents name was Isabel Sodre Este vao de Gama.

Aarfah Fahim 5A

CHRISTOPHER COLUMBUS

Christopher Columbus (1451-1506) was an Italian explorer, navigator and trader who made journey for discovering America, through Vikings and Native. Americans had already been there for centuries. He was born in Genna, Italy to a family of wool weavers. His real name was Christoforo Colombo. He studied sailing and map making. He made four Atlantic voyages, in 1492, 1493, 1498 and 1502. He died in Valladolid, Spain on May 20, 1506 at age of 54.

Rehmat Ali Raza 5A

I AM

I am quite a wonder and curious!!
I wonder if there is life on Mars
I hear peaceful and calming waves where I go
O see my future in my dreams and nightmares
I want accepting friends
I am quite and curious!!
I pretend to be government's secret spy
I feel certain tension
I touch the unreachable
I worry if I am good enough
I cry when I see others cry
I am quite and curious!!
I understand that I'm not perfect
I say "God help those who help themselves"
I dream about my life ahead
I hope one day someone finds a cure for Cancer!!
I'm quite and curious!!

STORY WITH PREPOSITION

Leila was walking along her road n oher way home, thinking about the lovely dinner waiting at home for her. When suddenly she heard a meawing above her head. She looked up and saw her neighbor's kitten stuck in tree. She tried to call it down but it was too afraid. Leila then went across the street and knocked on her neighbour's door. She then explained the problem to her neighbours, the neighbors came out of their house and went into his garden from a side gate. He took a ladder inside the garden and moments later, the neighbors took the little kitty carefully off the tree and gently freed it.

Anabia Adnan 5A

LIFE

Life is sweet and sour
Death is arriving any hour
Nothing will stay forever
There will be no light and day

Forget the flowers blooming in garden
Forget your friends and family sup-
porting you around
Time will follow like a stream of water
The world will get hotter and hotter

Waiting for help to come
It can only be a beacon of light for some
You have to struggle to win the race
In the end we all leave without a trace

Shanaya Faizan 5B

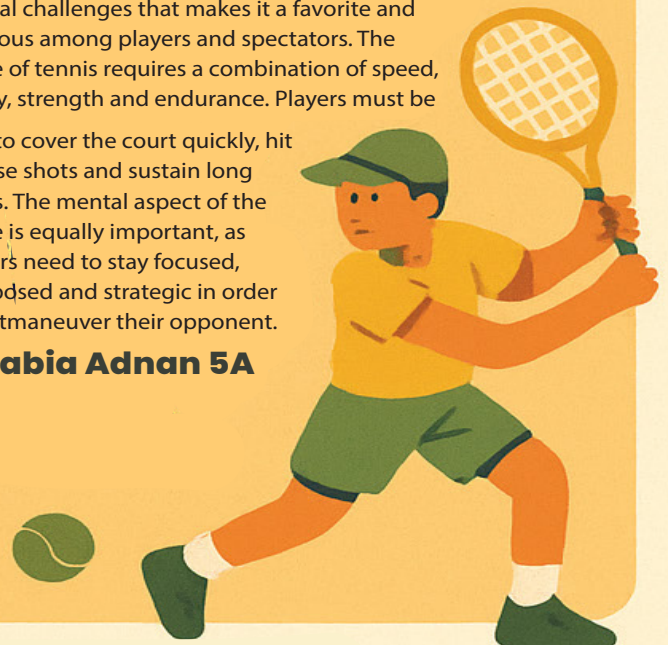

TENNIS

Tennis is a captivating and exhilarating sport that has gained immense popularity world wide. It is racket sport that can be played individually or in pairs and it is unique blend of physical and mental challenges that makes it a favorite and fabulous among players and spectators. The game of tennis requires a combination of speed, agility, strength and endurance. Players must be

able to cover the court quickly, hit precise shots and sustain long relays. The mental aspect of the game is equally important, as players need to stay focused, compdsed and strategic in order to outmaneuver their opponent.

FUN THINGS TO SAY

See you later, Alligator
After a while, Crocodile
Gotta go Buffalo
See you soon Raccoon
Be sweet Parakeet
Take care Polar bear
Hit the road Happy toad
Bye- bye Butterfly
Give me a hug Lady bug
Till then Penguin
Give me a kiss Goldfish
Out of door Dinosaur
Get in line Porcupine
On the bus Octopus
So long King Kong
Toodle too Kangaroo

Anabia Adnan 5A

JOKES

1. What is the smartest kind of bee?
Ans: Spelling bee
2. Where do polar bears vote?
Ans: The north pole
3. How do cats make a birthday cake?
Ans: From scratch
4. Where do fish sleep?
Ans: In water beds
5. What do you call a bee that lives in America?
Ans: USB

Anabia Adnan 5A

ANIMAL FUN FACTS

Sharks: Are only able to move forward and they die if they swim backwards.

Unicorn: Is the official national animal of the Scotland

Crocodiles: Salt water gives them the most powerful bite in the world.

Ants: A single ant can carry 50 times it's own body weight.

Horses: Are capable of seeing nearly 360 degrees at one time.

Pandas: Love to be alone.

Penguin: Scientist believe that they evolved from flying birds.

Dogs: Can detect cancer on their owners body.

Bees: Male bees are unable to feed without assistance from female bees.

Monkeys: Always eat bananas after peeling

Shanaya Faizan 5B

FUN FACTS

1. Giraffes have four kneecaps unlike humans, who have two kneecaps, giraffes have four to support their long legs
2. Butterflies taste with their feet, butterflies have tiny sensors on their feet that helps them detect the sweetness or bitterness of a substance.
3. The shortest war in the history was 38 minutes long. The Anglo - Zanzibar on August 27, 1896, lasted only 38 minutes.
4. A group of flamingos is called a "flamboyance". This colourful name suits these vibrant birds perfectly.
5. The longest recorded flight of chicken is 13 seconds. Yes you read the right, thirteen whole seconds.

Rubaina 5B

RIDDLES

1. What has keys but can't open a lock?

Ans: keyboard

2. What goes up and down but never moves?

Ans: Stairs

3. What can be put in bucket to make it weigh less?

Ans: A hole

4. What has a voice but only one word?

Ans: A echo

5. What can be broken but never held?

Ans: Promise

6. What has a head,a tail but no body?

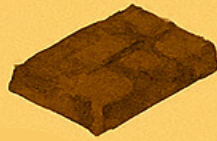

Ans: A coin

7. What can you catch but cannot throw?

Ans: A cold

Staircase

5. Is so fragile that saying its name breaks it?

Silence

6. Has a head, a tail, is brown, and has no legs?

A penny

Kashwini Manohar 5A

FACTS ABOUT ANIMALS

Snakes can't blink because they don't have eyelids. Instead, they have a special scale called a spectacle that covers their eyes.

Horses can sleep while standing up due to a locking mechanism in their legs, but they still need to lie down for deep sleep.

The starfish does not have a brain; instead, it uses a nerve ring and radial nerves to control its movements. Snails can sleep for up to three years during periods of extreme dryness, entering a state called estivation.

Male seahorses have pouches on their stomachs where they carry and give birth to their babies.

Dolphins actually call each other by name, using unique whistles to identify individuals

Octopuses have three hearts—two pump blood to the gills, and one pumps it to the rest of the body.

Flies taste with their feet, allowing them to land on food and immediately sense its flavor.

A silverback gorilla can lift over 1,763 pounds (800 kg), showcasing their immense strength.

The oldest known living land animal is Jonathan, a 192-year-old tortoise living on the island of Saint Helena.

Zunaira Mustaq 5A

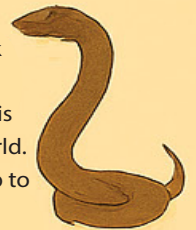

FACTS AND DESCRIPTION ABOUT SNAKES

1. Largest Snake (Heaviest & Longest) – The Green Anaconda (*Eunectes murinus*) from the Amazon rainforest is the heaviest snake in the world. It can weigh up to 227 kg (500 pounds) and grow to over 9 meters (30 feet) in length. Though the Reticulated Python (*Malayopython reticulatus*) is the longest snake, the anaconda is more massive.

2. Fastest Snake – The Black Mamba (*Dendroaspis polylepis*), native to Africa, is the fastest snake in the world. It can move at speeds of up to 19 km/h (12 mph) and is highly venomous.

3. Smallest Venomous Snake – The Schneider's Dwarf Adder (*Bitis schneideri*), found in Namibia, is the smallest venomous snake. It grows to about 20 cm (8 inches) in length.

Raza Ali Asghar 5D

HAUNTED HOUSE

Dear Victim,
Let me tell you a story...

Chapter One

Once, there was a family living in the dark. The children—Alvin, Simon, Theodore, and Eleanor—were always cold, their bones drenched, their skin bruised. Their parents warned them that the shadows were real.

One night, a faceless woman was seen killing a man in the woods. She stayed for a single day before she was replaced... but with what, no one knew.

Chapter Two

Knock. Knock.

At 11 PM, the sound echoed through the empty house.

No one could explain it.

She never moved. She never spoke.

The officer came running, his voice sharp with urgency.

And then, he said—

"Th..."

Chapter Three

"Th..."

The officer's words choked in his throat, as if something had stolen his voice. His eyes widened in horror, locked onto the figure in the doorway. The faceless woman stood there, motionless. No eyes, no mouth—just smooth, pale skin where her face should have been.

The children huddled together, their breath shallow. Their parents had warned them. The shadows were real.

Then, the woman moved.

Not by stepping forward, not by shifting her weight. She simply... appeared closer.

The officer staggered back. He reached for his radio, but static filled the air. The house lights flickered. The walls groaned, stretching like something inside them was breathing.

And then, the knocking started again.

Knock. Knock.

From inside the house.

Chapter Four

Eleanor whimpered. Theodore clutched her hand so tightly his nails dug into her skin. Alvin and Simon backed toward the staircase, their eyes darting around the darkened room.

The officer turned to run—

But the door slammed shut.

The faceless woman tilted her head. The knocking grew louder, faster, surrounding them. It wasn't coming from the front door anymore. It was coming from the walls. The ceiling. Beneath the floorboards.

Something was inside the house.

Something had always been inside the house.

Then, in a voice that did not belong to her—

The faceless woman spoke.

"You should not have opened the door."

Chapter Five

The moment she spoke, the air inside the house turned heavy. A deep pressure settled in their chests, making it hard to breathe. The knocking stopped. Silence swallowed the room.

Then—

The walls burst open.

Blackened hands, twisted and skeletal, reached out from the cracks. Long fingers clawed at the children, the officer, the very air around them. The house wasn't just haunted—it was alive.

Simon screamed as a hand wrapped around his ankle, dragging him toward the darkness. Alvin grabbed him, pulling back with all his strength.

Theodore and Eleanor clung to each other, tears streaming down their faces.

The officer fired his gun. The bullets disappeared into the endless void behind the walls. The faceless woman didn't flinch.

She took another step forward.

"You should not have opened the door," she repeated, her voice now a chorus of whispers, layered and unnatural.

The house shuddered. The floor beneath them splintered.

Then—

Everything stopped.

The knocking. The movement. The sound.

The children gasped for breath, their bodies trembling. The officer fell to his knees. The faceless woman... was gone.

The house stood still. Empty. Silent.

For a moment, they thought it was over.

Then, from the darkness, a single, hollow knock echoed through the air.

Knock. Knock.

And the door, the one they had locked, the one that had slammed shut—

Began to open.

The End.

ENEMY OF SELF CONFIDENCE BULLYING

What is Bullying?

Bullying is the repetitive and intentional act of hurting an individual or a group. It can be physical, verbal, or social.

Types of Bullying:

1. Verbal Bullying – Includes name-calling, making fun of others, and unwelcome teasing.
2. Physical Bullying – Involves pushing, hitting, pinching, spitting, shoving, or causing harm.
3. Social Bullying – Includes spreading false rumors, turning people against someone, or excluding them from a group.

Why Do People Bully?

They want to dominate others.

They have low self-esteem and insecurities.

They may not recognize their behavior as a problem.

Effects of Bullying on the Victim:

Decreased self-confidence.

Anxiety and increased feelings of sadness and loneliness.

Changes in sleeping and eating patterns.

Academic struggles and difficulty concentrating.

How to Prevent Bullying?

Educate children about bullying and its effects.

Teach them to report bullying to teachers or parents.

Encourage them to stay brave and not let bullies intimidate them.

Help children develop positive self-esteem and confidence.

Ammaarah Shehroz 5D

FASCINATING FACTS ABOUT SPIDERS

Spiders are not insects – Unlike insects, which have three body segments and six legs, spiders belong to the arachnid family, having two body segments and eight legs.

Spider silk is incredibly strong – A spider's dragline silk is several times stronger than steel on a weight-for-weight basis, making it one of the strongest natural materials on Earth.

Spiders move using hydraulic power – Instead of relying solely on muscles, spiders pump fluid into their legs, causing them to extend. This unique system helps them move efficiently. Spiders help control insect populations – It is estimated that spiders eat between 400 to 800 million tons of insects and invertebrates each year, playing a crucial role in keeping pest populations in check.

Qazi 5D

ARTICLE ON COLOUR "PINK"

Pink can be youthful, fun, and exciting.

Toning down the intensity of red with the purity of white results in a light, tender color associated with love, sweetness, and happiness.

It is kind and comforting, full of warmth and compassion, and is generally well accepted. Pink is friendly and uplifting; its spirit calms and nurtures, bringing joy and warmth into our lives.

Pink is also linked to health and well-being, symbolizing positivity and emotional balance.

Ayesha Ahmed 5B

THE ULTIMATE BRAIN TEASERS

1. The Unseen Ruler

"The more of me there is, the less you see. What am I?"

Answer: Darkness

2. The Cycle – The Heart of Matter

"I am always hungry. I must constantly be fed. The more I eat, the bigger I grow. If I drink, I die. What am I?"

Answer: Fire

3. The Silent Traveler

"I have a house but no walls. I have forests but no trees. I have rivers but no water. What am I?"

Answer: A map

A CLEVER RABBIT

Once upon a time, in a beautiful jungle, there lived a large, lazy lion. Being the king of the jungle, he called all the animals together and declared, "Every day, one of you must come to my den as my prey. If you refuse, I will destroy the entire jungle!" The animals were terrified and agreed to obey the lion's demand. One by one, they sacrificed themselves, and the lazy lion was pleased with his easy meals.

One day, it was the turn of a clever little rabbit. Instead of going straight to the lion's den, the rabbit came up with a plan. He wandered around and reached the lion very late. The hungry lion roared angrily, "Why are you late?"

The rabbit, pretending to be frightened, said, "Oh mighty king, I was on my way here, but I met another lion in the jungle—one even bigger and stronger than you! He said that he was the real king and wanted to eat me himself."

The lion was furious. "Another lion? Take me to him!" The clever rabbit led the lion to a deep well and pointed inside. "The other lion is in there!"

The lion peered into the well and saw his own reflection in the water. Thinking it was a real rival, he roared in anger. His own reflection roared back at him! Enraged, the lion jumped into the well to fight—only to drown.

The jungle was finally free from his terror, and the clever rabbit became a hero among the animals!

TOP 10 SCIENTIFIC DISCOVERIES

1. Theory of Evolution by Natural Selection (Charles Darwin)

Explains how species change over generations through the process of natural selection.

2. Laws of Motion and Universal Gravitation (Isaac Newton)

Describes how objects move and interact, forming the foundation of classical mechanics.

3. Discovery of DNA's Double Helix (James Watson & Francis Crick, with contributions from Rosalind Franklin & Maurice Wilkins)

Identified the structure of DNA, revealing the secrets of genetic inheritance.

4. Germ Theory of Disease (Louis Pasteur & Robert Koch). Demonstrated that microorganisms are the cause of many diseases, leading to vaccines and hygiene improvements.

5. Quantum Mechanics (Max Planck, Albert Einstein, Niels Bohr, and others)

A fundamental theory explaining the behavior of particles at the smallest scales.

6. Theory of Relativity (Albert Einstein)

Revolutionized our understanding of space, time, and gravity with special and general relativity.

7. Penicillin and Antibiotics (Alexander Fleming)

Discovered the first antibiotic, revolutionizing medicine and saving millions of lives.

8. Big Bang Theory (Georges Lemaître, Edwin Hubble, and others)

Describes the origin of the universe and its expansion.

9. Periodic Table (Dmitri Mendeleev)

Organized elements based on atomic structure, predicting the properties of undiscovered elements.

10. Radioactivity (Marie Curie, Henri Becquerel, Pierre Curie)

Discovered radioactive elements and their properties, leading to advancements in physics, medicine, and energy.

FACTS ABOUT ORANGES

One orange contains enough vitamin C for a full daily dose.

The color orange is named after the fruit.

Oranges don't ripen after they're picked.

Orange peels contain oils that are used in cosmetics.

In Western societies, orange juice is often served for breakfast.

Oranges can be eaten raw, juiced, or used in desserts.

Orange wood sticks are commonly used for manicures and pedicures.

Orange flower water is made from the petals of the orange blossom.

Orange trees need a lot of water and sunshine to grow.

Orange trees can grow up to 33 feet tall.

KNOCK-KNOCK

Knock-Knock

It was a cold winter night. Peter was sitting alone in the living room, wrapped in a warm blanket. His parents had gone out for a party, leaving him home alone. The only sounds were the ticking of the clock and the occasional howl of the wind outside.

Suddenly—knock-knock!

Peter sat up, startled. He thought his parents had come back early. He rushed to the door, but when he opened it, no one was there.

Confused, he stepped outside and looked around. The street was empty, covered in fresh snow. Just as he was about to close the door—knock-knock!

But this time, the sound wasn't coming from the door. It was coming from inside the house.

Peter's heart pounded. He turned around slowly, his breath visible in the chilly air. The knocks echoed again, louder this time, from upstairs.

Peter's hands trembled as he gripped the doorknob. Slowly, he turned and took a step toward the stairs. Knock-knock! The sound came from his bedroom.

Swallowing his fear, he crept up the steps. The door to his room was slightly open. He reached out and pushed it wider.

Nothing.

Then—knock-knock!—from inside his closet.

Peter's heart nearly stopped. He took a deep breath and yanked the closet door open.

A gust of wind blew past him. The window inside the closet was open, knocking against the frame. He let out a shaky laugh.

Just the wind.

As he closed the window, a whisper brushed his ear.

"Are you sure?"

The lights flickered. The door slammed shut behind him. And the knocking... started again.

The End.

100 Jokes for Kids

*Just fill your jar with
smiles and giggles.*

Just fill your jar with smiles and giggles.
Why did the bird get in trouble at school? For tweeting on a test!
What's the smartest insect? A spelling bee!
How does the ocean say hi? It waves!
Name the kind of tree you can hold in your hand? A palm tree!
Why do birds fly south in the winter? It's faster than walking
Where did the music teacher leave her keys? In the piano!
Which superhero hits home runs? Batman!
Why is a football stadium always cold? It has lots of fans!
Why did the chicken cross the playground? To get to the other slide.
What kind of math do birds love? Owl-gebra!
How does a barber drive to work? He takes shortcuts!
What kind of shoes do frogs love? Open-toad!
Why do ducks always pay with cash? Because they always have bills!
Where do most horses live? In neigh-borhoods!
Which planet loves to sing? Nep-tune!
Why are basketball courts always wet? Because the players dribble!
What kind of keys are sweet? Cookies!
Knock, knock! Who's there? Woo. Woo-hoo no need to get so excited; it's just a joke!
What do you call cheese that belongs to someone else? Nacho cheese!
Why did the peanut get into a rocket? He wanted to be an astro-nut!
What fruit do twins love? Pears!
How do bees brush their hair? With honeycombs!
Why won't peanut butter tell you a secret? He's afraid you'll spread it!
Who eats snails? People who don't like fast food!
Why did the banana visit the doctor? He wasn't peeling well!
Why did the computer get sick? It caught a virus!
Why did the teacher have birdseed? For her parrot-teacher conference.

CATS

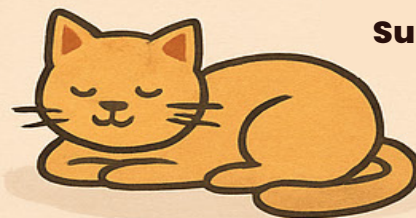

One cat, two cats, three cats, four,
Four cats scratching
At my grand's back door.

Five cats, six cats, seven cats, eight,
Eight cats scratching
At my grandma's gate.

Eight cats, seven cats, six cats, five,
Five cats scratching
At the old bee-hive.

Four cats, three cats, two cats, one,
One cat napping
In the noon-day sun.

IMPORTANCE OF ARTIFICIAL INTELLIGENCE

Today, human activities have been much easier due to the arrival of new technologies. These technologies include "Artificial Intelligence. It is new technology in the field of computer science. Artificial intelligence (AI) is combination of two words Artificial and Intelligence. AI helps us in many ways. For Optimizing consumption, providing resource enhanced efficiency and financial savings. It is also used in hospitals to diagnose diseases etc. It also helps students improve how they are assessed and guided while also helping to build digital literacy, critical thinking, creativity and problem solving skills.

So, from now on we will try to use AI so that our work can be error-free and accurate. Here's a Quote: "Predicting the future isn't magic, it's Artificial Intelligence."

IMPORTANCE OF TREES

A tree is important for us. A tree is a wonderful creation of God. Without trees, life on the earth would not be possible. They provide shelter to birds and animals. The wood of tree is used for many purposes. Tree bear fruits and flowers. Some trees have medicinal value, while others secrete useful substances such as rubber and gum. Trees influence the climate. They cool the air. They attract rain. The roots keeps the soil firm. This prevents soil erosion during rain and floods. More and more trees are being cut down all over the world In order to build house for people. Trees are also felled to make paper, furniture, etc. This is a very harmful practice. If all the trees are cut down, the earth would become very warm indeed. Trees take in carbon dioxide and give out oxygen. If there were no trees the amount o to those were no sees the amount of carbon dioxide on the earth would increase.

- Cauliflower comes in multiple colors.

Muhammad Aashir Asif 6A

INTERESTING FACTS

1. The Universe is Expanding: The universe is expanding at an accelerating rate, driven by a mysterious force known as dark energy, which makes up about 68% of the universe.
2. Infinite Stars: There are more stars in the universe than grains of sand on all the Earth's beaches, with an estimated 1 septillion (1 followed by 24 zeros) stars.
3. Neutron Star Density: A sugar-cube-sized amount of matter from a neutron star weighs about 1 billion tons due to its extreme density.
4. Black Holes Trap Light: The gravitational pull of a black hole is so strong that even light cannot escape, making it invisible and detectable only by the effect it has on nearby matter.
5. Mars Has the Tallest Volcano: Olympus Mons, a shield volcano on Mars, is the tallest mountain in the solar system, standing at 13.6 miles (22 km) high—nearly three times taller than Mount Everest.
6. The Sun's Energy: Every second, the Sun fuses about 600 million tons of hydrogen into helium, releasing immense energy that powers our solar system.
7. The Moon's Surface: The Moon has no atmosphere, so its surface is covered in a fine, powdery dust called regolith, created by billions of years of impacts.
8. The Great Red Spot: Jupiter's Great Red Spot is a massive storm that has been raging for over 300 years. It is so large that Earth could fit inside it.
9. Space-Time Warp: Massive objects, like stars and black holes, warp the fabric of space-time, causing gravity. This phenomenon was predicted by Einstein's General Theory of Relativity.
10. Voyager 1's Journey: Launched in 1977, NASA's Voyager 1 spacecraft is the farthest human-made object from Earth, traveling beyond the heliosphere into interstellar space

TULSI PLANT DESCRIP

Appearance:

Tulsi is a herbaceous plant that grows up to 2–3 feet tall. It has delicate, velvety leaves that are green in color with slightly serrated edges. The leaves are arranged oppositely on the stem and have a distinctive, strong aroma.

Flowers:

Tulsi produces small, tubular flowers that are purplish in color. These flowers are arranged in a spike-like inflorescence and are highly fragrant.

Stem:

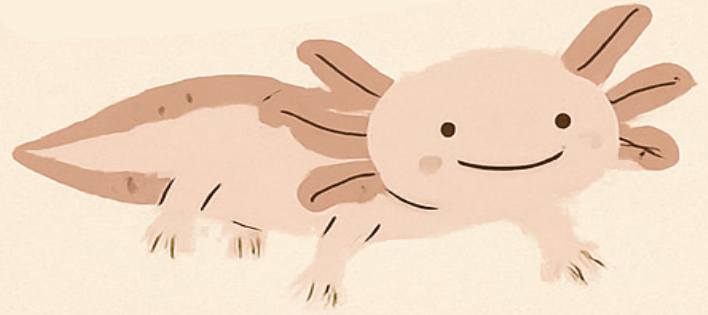

The stem of the Tulsi plant is slightly hairy and has a distinctive square shape, a characteristic feature of plants in the mint family (Lamiaceae).

Roots:

Tulsi has a taproot system, meaning its primary root grows straight down into the soil, helping the plant absorb nutrients and water efficiently.

FUN FACTS ABOUT AXOLOTLS

1. They Can Regrow Body Parts – Axolotls have an incredible ability to regenerate limbs, spinal cords, and even parts of their hearts and brains!
2. They Never Grow Up – Unlike most amphibians, axolotls stay in their larval form their whole lives. They keep their gills and live underwater.
3. They Can Breathe in Two Ways – Axolotls have both gills and lungs, so they can absorb oxygen from water and air.
4. They Come in Different Colors – Wild axolotls are usually dark brown or greenish, but pet axolotls can be pink, white, golden, or even speckled.
5. They're Critically Endangered – Axolotls are only found in a few lakes in Mexico, and their wild population is shrinking due to pollution and habitat destruction.
6. They Were Worshipped by the Aztecs – The name “axolotl” comes from the Aztec god Xolotl, who was associated with transformation and death.
7. They Can Eat Their Own Kind – Axolotls are carnivores and, when young, they sometimes nibble on their siblings if food is scarce!

Double Chocolate Fudge Cake recipe

Ingredients:

- 3 eggs
- 1 cup caster sugar
- 1 cup oil
- 1 tsp vanilla essence
- ½ cup cocoa powder
- 1 cup flour
- ¾ cup chocolate spread

Instructions:

1. In a mixing bowl, whisk together eggs, caster sugar, and oil for about a minute.
 2. Add vanilla essence and mix well.
 3. Sift in cocoa powder and flour, then mix until combined.
 4. Add the chocolate spread and mix until smooth.
 5. Preheat your oven to 180°C (356°F).
 6. Pour the batter into a greased cake pan.
 7. Bake at 160°C (320°F) for 30 minutes or until a toothpick inserted in the center comes out clean.
 8. Let the cake cool before serving.
- Enjoy your double chocolate fudge cake.

Riddles & Answers

1. I'm tall when I'm young, and I'm short when I'm old. What am I?
2. What has many keys but can't open a single lock?
3. I'm always in front of you but can't be seen. What am I?
4. I'm light as a feather, yet the strongest man can't hold me for more than a minute. What am I?
5. The more you take the more you leave behind. What am I?
6. What belongs to you but is used more by others?
7. What can you catch but not throw?
8. I shave every day, but my beard stays the same. What am I?
9. I have no life, but I can die. What am I?
10. I have no wings, but I can fly. What am I?
11. What can break without being touched?

ANSWERS

1. A candle

6. Your name
7. A cold
8. A barber
9. A battery
10. A cloud
11. A promise

HM's Interview

Interview with the Headmistress of Meritorious International School – Ms. Natasha Salim

Conducted by students of Grades 3, 4, 5, and 6

Introduction:

Students from Grades 3 to 6 at Meritorious International School had the special opportunity to interview the Headmistress, Ms. Natasha Salim. The interviewers were Zarmeen from Class 3, M. Suleiman from Class 4, Ayyan Ilyas from Class 5, and Mariam Khurram from Class 6.

Q1: What inspired you to become a headmistress?

I had already reached the pinnacle of my teaching career, and I wanted to grow further. After giving many years to teaching, I felt it was time to move on to something bigger. I joined MIS in 2010, so this is my 15th year going on to the 16th. I love working with kids, and the satisfaction of seeing students learn something is unmatched.

Q2: Were you a naughty student?

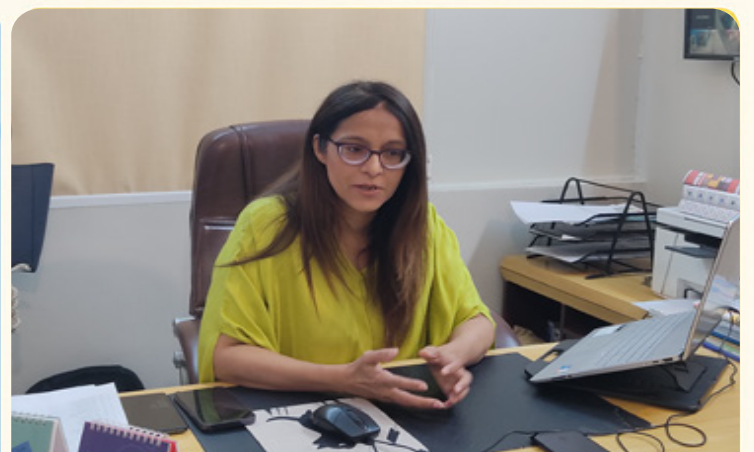

Ms. Natasha: No, I was very obedient and timid till Grade 10—always quiet, nerdy, and got A grades. But in Grade 10, thanks to some amazing teachers, my personality changed completely. I became confident and extroverted.

Q4: Do you remember any teachers who inspired you?

Ms. Natasha: Yes, many! Mr. Cooper (Chemistry), Mr. Adil (Math), Mr. Pickett (Biology), and Mr. Henderson (Headmaster). Mr. Pickett supported me in choosing not to become a doctor—something my mom didn't appreciate at the time!

Q3: What is the fun part of your job?

Ms. Natasha: Interacting with students! Office work can be tedious, but meeting students relaxes my mind and is the most enjoyable part of my job.

Q5: What was your favorite subject and why?

Ms. Natasha: Biology was my favorite. I also loved French and even received an award for it.

Q6: What advice would you give to shy students?

Ms. Natasha: Change can come anytime. Don't be shy—it's okay to take your time. Confidence is key, and you must try to come out of your shell.

Q7: Did you get any awards in school?

Ms. Natasha: Yes, I was a top student. I got distinctions and awards for French, Chemistry, and was an honor roll student.

Q8: What's one thing you would like to change in school today?

Ms. Natasha: The timings! I'd prefer school starting at 9:00 a.m. instead of 7:30 a.m. for us and 8:00 a.m. for you. Also, I'd love to have more music around the school like we had in my school days.

Q9: How do you feel when students win competitions?

Ms. Natasha: I feel very proud—whether you win or not, making an effort is what makes me proud.

Q10: What do you do in your free time?

Ms. Natasha: I love doing large jigsaw puzzles and playing with my two cats—Kaya (female) and Sheru (the naughty male).

Q11: If you could introduce a new activity in school, what would it be?

Ms. Natasha: Swimming! I'd love to have a swimming pool at MIS. It's a great exercise and a life skill.

Q12: How do you handle difficult situations with students or teachers?

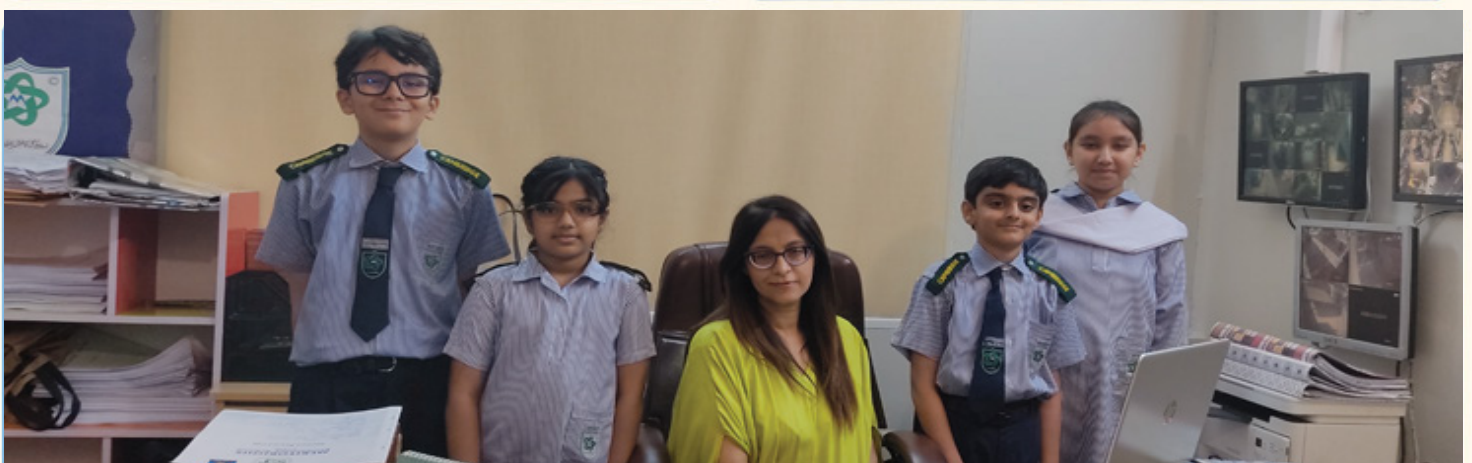

Ms. Natasha: Communication. Listening, understanding, and talking it out can resolve most problems.

Q13: What message would you like to give to all the students at MIS?

Ms. Natasha: Study hard, respect your teachers, be aware of your surroundings, and never forget your manners and ethics. Also, follow your passion—not everyone has to be a doctor or engineer.

Q14: What part of your day at home do you enjoy most?

Ms. Natasha: I love my morning time—it's when I have my tea and coffee. I'm not a morning person, but I enjoy that peaceful start.

Q15: What qualities should a good student have?

Ms. Natasha: The willingness to try, make an effort, be responsible, respectful, empathetic, and caring—not just towards teachers but classmates and support staff too

Q16: Can you share a memorable moment from your time in MIS?

Ms. Natasha: So many! Every event—from Spring Fiesta to drama performances—is memorable. I also treasure the times I received awards for being an outstanding teacher or coordinator.

Q17: What are your hopes for MIS in the future?

Ms. Natasha: I hope we become one of the most renowned schools in Pakistan, with branches internationally. I also want our students to stand out and be recognized for their values and talents.

Q18: If you weren't a headmistress, what would you be?

Ms. Natasha: A psychologist! That was my dream, but my parents didn't allow it. Thankfully, today's parents are more open-minded, and I encourage students to pursue their dreams.

This interview was more than just a conversation—it was a learning experience that left a lasting impact on the students. It helped them build confidence, practice respectful communication, and understand the value of listening and asking thoughtful questions. Engaging with a school leader in this way encouraged curiosity, inspired leadership, and nurtured a deeper connection with their school environment. Activities like these play a vital role in shaping students into articulate, responsible, and thoughtful individuals.

Pakistan's 77th Independence Day Celebration – August 14, 2024

On August 14, 2024, the spirit of patriotism came alive at MIS as students and staff gathered to celebrate Pakistan's 77th Independence Day with heartfelt enthusiasm and pride.

The school was beautifully decorated in green and white, and the entire campus radiated national spirit. Students opened the day with the national anthem and patriotic songs, echoing a deep sense of unity. Cultural performances followed, featuring vibrant traditional dances that showcased the rich diversity of Pakistan—from the energetic beats of Punjab to the elegant rhythms of Sindh and Balochistan.

A passionate student speech reminded everyone of the sacrifices made for our independence, instilling a sense of gratitude and national pride. The younger learners stole hearts as they dipped their little hands in white paint and stamped handprints on a large flag canvas — a symbol of hope, unity, and their budding patriotism.

Adding a joyful twist, teachers presented a humorous and nostalgic skit that was thoroughly enjoyed by all. The event concluded on a sweet note with a cake-cutting ceremony and treats for the students. This memorable day not only celebrated independence but also emphasized the values of unity, freedom, and love for our homeland.

Mehfil-e-Zikr-e-Rasool (PBUH)

With great reverence and love, we proudly organized a soulful Mehfil-e-Zikr-e-Rasool (PBUH) on September 27, 2024. Students passionately recited Na'ats and Durood Sharif, expressing their deep love for the Holy Prophet Muhammad (PBUH). The heartfelt recitations filled the atmosphere with peace, devotion, and spiritual warmth. The presence of mothers added emotional depth to the occasion, making it even more meaningful. The school was adorned with lanterns, floral decor, and Islamic calligraphy, reflecting the reverence of the day. The event concluded with a heartfelt Dua, leaving everyone profoundly moved and spiritually uplifted.

Zootopia Day – A Wildly Fun Celebration!

Inspired by the idea behind Zootopia — a blend of “zoo” and “utopia” — KG1, KG2, 1A, and 1B came together to celebrate animals, unity, and imagination. The young learners turned the school into a jungle of joy as they dressed up as their favorite animals and participated in an energetic animal parade.

Children mimicked how animals look and move, showcasing their best “animal walks,” making the event an interactive safari of learning and fun. The day helped reinforce lessons about animals, habitats, and nature while boosting confidence and creativity.

Grandparents' Day

Grandparents hold a timeless place in our hearts, guiding generations with their love and wisdom. To honor these pillars of our families, MIS celebrated Grandparents' Day with warmth and joy.

The celebration featured a skit, a heartfelt poem, and a touching song performed by students. Grandparents also joined in the fun — sharing stories, enjoying a meal with their grandchildren, and participating in an arts and crafts activity. It was a day of laughter, bonding, and unforgettable memories, celebrating the irreplaceable role of grandparents in our lives.

Splash Fest

Let me take a break; it was a splashy lake! Our KG1 and KG2 students had an absolutely thrilling time at the much-anticipated Splash Fest. It was the perfect way to beat the heat and kick off summer fun!

The event featured safe and joyful water play zones, inflatable pools, water slides, and bubble fights that brought endless giggles. Children splashed about freely, enjoyed foam sprays, danced to music, and even participated in mini water games like sponge races and duck hunts. Teachers joined in the fun, making it a playful bonding moment for all.

Every corner was filled with excitement, and the water-themed decorations added to the festive vibe. With refreshments to cool off and cheerful photo sessions, Splash Fest wasn't just about fun — it was about celebrating childhood, friendship, and unforgettable summer memories.

Yellow Day

Yellow Day at MIS was more than just a celebration of a color — it was a joyful exploration of sharing and positivity. Symbolizing sunlight and generosity, Yellow Day was celebrated with great excitement by KG1 and KG2 students. The day included making mango jelly, creating a pentagon-shaped bee house, crafting, coloring, and a lively hula hoop activity. With yellow-themed decorations and cheerful smiles, the event brightened the day and reinforced valuable life lessons through fun-filled learning.

Father's Breakfast Day A Heartwarming Morning with Dad

This year, we introduced Father's Breakfast Day to recognize the special bond between dads and their little ones. While Mother's Breakfast is a tradition, it was time to give fathers their moment of love and appreciation.

Our KG and Grade 1 students invited their fathers to school for a delightful breakfast. The children, dressed as breakfast items like sunny-side-up eggs and jam jars, proudly shared their favorite foods. Dads enjoyed a hearty spread of oats, choccos, toast, and tea. The event ended with themed photo frames and selfies, capturing moments of joy that will be cherished for years to come.

Tasbih Time – Little Hands, Big Blessings

During the blessed month of Ramadan, MIS continued the tradition of "Tasbih Time" with our youngest learners (ages 2 to 5). Though too young to fast, these little hearts embraced the spiritual essence of Ramadan in their own special way.

With Tasbihs in hand, they recited simple praises, learning the values of gratitude, kindness, and remembrance of Allah. It was a serene and meaningful session, proving that even the smallest voices can echo big blessings.

Eid Milan Party

A Celebration of Togetherness

To rekindle the festive spirit after the Eid holidays, MIS hosted a cheerful Eid Milan Party. Though just an hour long, it was packed with fun, laughter, and sharing.

Students arrived in festive attire, played games, exchanged Eid stories, and shared food from home. The event fostered friendship, joy, and the warmth of celebration — making it a perfect welcome back to school.

Vocal Vibes: A Symphony of Expression at MIS

Language came to life at MIS during our much-celebrated English Elocution event – Vocal Vibes, where students from Grades IV to VI took to the stage to showcase their love for poetry, rhythm, and the art of spoken word.

With confidence and charm, each young speaker recited carefully chosen poems, breathing life into every verse with their clear diction, expressive voice modulation, and passionate delivery. From humorous rhymes to thoughtful reflections and nature-inspired pieces, the stage echoed with a beautiful blend of emotions, creativity, and literary expression.

The audience was truly impressed by the talent and poise displayed by the students. It was evident that they had not only memorized their pieces but had understood and connected with the meaning behind every word.

Teachers and judges praised the participants for their stage presence, pronunciation, and the ability to hold the attention of the audience — a skill that will surely benefit them in all walks of life. The event wasn't about competition alone; it was about finding confidence, appreciating literature, and encouraging young minds to express themselves freely and fearlessly.

"Vocal Vibes" left everyone with a renewed appreciation for the beauty of language and the power of voice. At MIS, we continue to nurture confident communicators who are not only readers and writers — but eloquent speakers, ready to inspire the world.

Generation Genius

When Parents Became Students and Kids Became Teachers!

In a heartwarming and brain-teasing twist, our school hosted Generation Genius, a one-of-a-kind quiz event that brought parents and children together in a celebration of knowledge, curiosity, and teamwork!

This wasn't just any quiz. Designed around general concepts of Math and Science, Generation Genius invited parents to take center stage while their children—our very own bright young minds—cheered, coached, and occasionally whispered answers from the sidelines! The quiz was both fun and enlightening, filled with laughter, surprises, and those “aha!” moments that made the event truly unforgettable.

What made this event so special was the beautiful role reversal. The students became the guiding lights for their parents, helping them recall formulas, explain tricky scientific concepts, and rediscover the joy of learning. It was wonderful to see families bond over brainstorming, compete with friendly spirit, and most importantly, celebrate the genius that lives in every generation.

From quick-fire rounds to puzzles and logic questions, the competition had everyone at the edge of their seats. But beyond the questions and answers, what truly stole the show was the teamwork and the shared love for learning.

As one parent put it, “I never thought I'd be learning Newton's Laws again—with my child as my teacher!” It was a proud moment for students and a memorable one for parents.

Generation Genius reminded us that learning never stops, and sometimes, the best teachers are sitting right across the dinner table. Here's to more such events where knowledge meets fun, and families grow even closer in the process!

Characters Come Alive

The campus of MIS transformed into a magical world of stories and imagination as we hosted our much-awaited “Characters Come Alive” event. It was a day when beloved storybook characters stepped off the pages and into our school, brought to life by the creativity and enthusiasm of our students.

Dressed in vibrant costumes, students took on the roles of their favorite literary characters — from classic fairytale heroes and villains to modern-day icons. Each participant not only looked the part but also delivered iconic dialogues and monologues, capturing the essence of their chosen character with remarkable expression and confidence.

From Harry Potter casting spells in the hallway to Cinderella talking about dreams and kindness, and from Robin Hood's forest games to Little Red Riding Hood sharing her woodland adventure — the event was a celebration of literature, imagination, and performance.

“Characters Come Alive” was not just about dressing up — it was about stepping into someone else's shoes, understanding different perspectives, and gaining confidence in public speaking. At MIS, we believe in nurturing both minds and imaginations, and this event was a shining example of learning through creativity and fun.

Mathletics

Numbers, logic, and quick thinking took center stage at MIS during our exciting Mathletics, where students put their mental math skills and problem-solving abilities to the ultimate test!

The event brought together bright young minds from various grades, all eager to challenge themselves and show off their mathematical talents. Divided into teams, students faced multiple rounds filled with brain teasers, rapid-fire questions, and real-life problem-solving scenarios.

From basic arithmetic to tricky puzzles and geometry challenges, the quiz tested more than just formulas — it tested teamwork, strategy, and speed. With each correct answer, cheers echoed around, creating an electric atmosphere of learning and excitement.

The competition was not only a fun and engaging way to strengthen math skills but also a great confidence booster for all participants. It encouraged students to think critically, work collaboratively, and most importantly, enjoy the subject of mathematics beyond the classroom.

The winning team received gifts and certificates, while all participants were appreciated for their efforts and enthusiasm. Teachers and organizers praised the students for their incredible focus and sportsmanship throughout the event. At MIS, we believe that learning can be both educational and enjoyable — and the Math Quiz was a perfect example of that balance in action.

Spring Fiesta: A Day of Fun, Food & Festivities at MIS

The campus of came alive with color, laughter, and excitement during the much-anticipated Spring Fiesta — a grand celebration that brought the whole school community together for a day full of fun, food, and fantastic memories.

From the moment the gates opened, the carnival buzzed with energy. A wide variety of games and activity stalls lined the school grounds, each one more exciting than the last! Students, parents, and teachers enthusiastically tried their luck at ring toss, balloon darts, face painting, and more. The joy on everyone's faces was truly contagious.

A special highlight was the food court area, offering a mouthwatering selection of treats. From spicy chaats and crispy fries to cupcakes, ice cream, and fresh juices — there was something to delight every taste bud. The delicious aroma from the food stalls filled the air, adding to the festive spirit of the day.

Various creative and themed stalls also drew large crowds, with students and staff showcasing handmade crafts, artwork, accessories, and DIY items. These stalls reflected the talent, creativity, and teamwork that our school prides itself on.

Adding an extra layer of excitement were the crowd-favorite games of Tambola and the thrilling Raffle Draw held at the end of the day. As numbers were called out and tickets checked, the air was filled with suspense and cheers. Lucky winners walked away with exciting prizes, bringing the perfect close to an already amazing day.

The Spring Fiesta was not just an event, it was an experience — a joyful celebration of togetherness, creativity, and community spirit. At MIS, we believe in creating moments that last a lifetime, and this carnival surely did just that!

Ramadan Radiance

A Celebration of Faith, Reflection, and Unity

As the blessed month of Ramadan embraced us with its serenity and spiritual light, our school came together to honor this sacred time with a soulful event—Ramadan Radiant.

Held with deep reverence and joy, Ramadan Radiant was a heartfelt celebration of the holy events and spiritual essence of Ramadan. The program opened with a beautiful recitation of the Holy Qur'an, filling the atmosphere with peace and reflection. Students recited verses with great devotion, reminding everyone of the divine guidance and mercy that Ramadan brings.

Adding to the spirit of giving, our school also organized a Ramadan Donation Drive, encouraging students, parents, and staff to contribute towards supporting the needy and underprivileged. From food items and clothing to essential supplies, the generous contributions poured in with open hearts. These donations were distributed to families in need, reminding us all of the true essence of Ramadan—compassion, sharing, and community care.

Ramadan Radiant was not just an event—it was a spiritual journey that brought the school community together in faith, unity, and gratitude. It reminded us all of the beauty of Ramadan and the light it brings to our hearts and lives. May the spirit of Ramadan continue to shine within us all, long after the crescent moon has set.

Annual Race Day

A Celebration of Speed, Spirit & Smiles at MIS

The grand finale of the sports season at MIS was marked with unmatched energy and excitement as we hosted our much-awaited Annual Race Day — a spectacular event where students, parents, and staff came together to celebrate fitness, fun, and friendly competition. The gym was buzzing with anticipation as students lined up for their races, cheered on by enthusiastic cheerleaders waving pom-poms and spreading infectious school spirit. With every race, the crowd erupted with support, creating a vibrant atmosphere full of encouragement and joy.

Between the races, the audience was treated to a series of lively performances — from energetic Flex and Flow to Hulla Hoop Fusions — showcasing the talents of our students and adding flair to the already festive day. But the show-stopper that truly left everyone in awe was the Taekwondo display. With sharp moves, disciplined formations, and powerful board-breaking stunts, our young martial artists demonstrated skill, strength, and focus.

A special highlight of the event was the much-talked-about Tug of War between the fathers. With teams pulling with all their might and spectators cheering wildly, it was a moment of sheer strength and laughter, proving that the competitive spirit isn't just for the kids!

And to bring the day to a perfect close, the Final Race of the Day featured none other than the supermoms! With big smiles and an even bigger spirit, the mothers' race was a heartwarming and exciting finish to a day full of memories. It was a beautiful reminder that Race Day MIS is about more than just speed — it's about participation, unity, and family fun.

Trophies, medals, and certificates were awarded to winners, but every participant left with something far more special: joy, pride, and unforgettable moments shared with friends and family.

At MIS, Race Day isn't just a sporting event — it's a celebration of team spirit, healthy competition, and the strong bonds within our school community.

DEFENCE DAY

Meritorious International School paid a heartfelt tribute to the brave heroes of our nation through a vibrant and patriotic Defence Day celebration. The event was a beautiful reflection of the students' love for Pakistan and their deep respect for the armed forces.

The day began with an enthusiastic display of national spirit. Students showcased their patriotism through spirited performances, including skits, speeches, and soulful renditions of national songs that echoed with pride and gratitude. The performances reminded everyone of the sacrifices made by our soldiers to protect the country.

A special highlight of the event was the students dressed in the uniforms of the Pakistan Army, Navy, and Air Force. Each branch of the armed forces was honored, with students confidently representing the discipline, strength, and unity of our defense institutions. The colorful and creative skits portrayed stories of courage, duty, and national pride, capturing the attention of all present.

From the youngest participants to the senior students, everyone joined in to make the day memorable. The spirit of unity and patriotism filled the air, as flags waved proudly and voices sang in harmony.

The Defence Day celebration at Meritorious International School served as a meaningful reminder of the importance of national unity and the sacrifices made by our soldiers. It was truly a day of pride, remembrance, and renewed commitment to Pakistan.

WHIMSY WORDS

On the 20th of September 2024, the stage of Meritorious International School came alive with vibrant expressions and poetic charm as students of Years II and III took part in the much-awaited Whimsy Words – English Elocution Competition.

With clear voices, confident presence, and expressive delivery, the young participants recited a delightful range of poems that truly moved the audience. From humorous verses to meaningful reflections, each performance highlighted the students' growing command of language and their flair for self-expression.

The event was a true celebration of confidence, creativity, and communication skills, leaving a lasting impression on all who attended. Heartfelt congratulations to all our brilliant performers and deserving winners for making Whimsy Words a memorable success!

Open House

As the academic year 2024–2025 began, Meritorious International School opened its doors with a warm and inviting Open House, setting the tone for an exciting year of learning, growth, and community.

The event was designed to welcome both new and returning families. Parents, students, and guardians were greeted in a refreshing atmosphere filled with excitement and positive energy. The meet-and-greet session offered a valuable opportunity for parents to interact with the teaching faculty, school leadership, and fellow parents in a relaxed and friendly setting.

A brief orientation session gave insight into the school's vision, academic goals, teaching methodologies, and co-curricular plans for the year. Parents were given a clear understanding of what to expect and how they could support their children's educational journey.

Families also enjoyed guided campus tours, which allowed them to explore the learning spaces, classrooms, library, activity zones, and other key areas of the school. The tours helped parents and students feel more connected and familiar with the school environment.

Special activity corners were set up across the campus for students to engage in fun-filled, hands-on experiences. From creative art booths to interactive games and learning stations, the children were fully immersed and thoroughly entertained.

To assist everyone, an information desk was available throughout the event to answer queries regarding admissions, school policies, academic plans, and extracurricular offerings. The school staff ensured that each family felt informed and supported.

The Open House at Meritorious International School was more than just an introduction — it was a celebration of community and a strong step forward into a promising new school year.

Traveller's Tales

On 28th November 2024, Meritorious International School transformed into a lively international terminal as students participated in the much-anticipated Traveller's Tales event. With the school resembling an airport—complete with boarding counters, flight announcements, and "tourists" ready to explore—the day promised adventure and cultural discovery like never before.

Students embraced the roles of enthusiastic tour guides, proudly representing different countries across continents. Each classroom became a portal into a new land, beautifully decorated with national flags, cultural symbols, iconic landmarks, and traditional artifacts. Visitors were welcomed with engaging presentations, interactive displays, and even samples of traditional cuisines. From the bustling streets of Tokyo to the deserts of Egypt, and from the Eiffel Tower of Paris to the savannas of Africa, each setup brought its chosen country vividly to life.

Dressed in colorful national attire, students spoke confidently about customs, famous personalities, local languages, and capital cities. Guests, including parents and fellow students, journeyed from one country to another, collecting stamps in their "passports" and learning fascinating facts along the way.

The event was more than a cultural exhibition — it was a celebration of global unity, respect for diversity, and a deeper understanding of the world beyond borders. With laughter, learning, and lively conversations filling the air, Traveller's Tales proved to be an enriching experience that broadened young minds and sparked a spirit of exploration in every participant.

Iqbal Day

Meritorious International School celebrated Iqbal Day with great enthusiasm and reverence to honour the visionary poet and philosopher, Allama Muhammad Iqbal. Students performed inspiring tableaus and skits that highlighted Iqbal's life, ideas, and dream for Pakistan. His powerful poetry was recited with passion, and students shared meaningful messages that reflected his teachings on selfhood, unity, and faith. The event served as a beautiful tribute to Iqbal's legacy, leaving everyone inspired and proud of their national identity.

30 Years
of Meritorious

Meritorious International School joyfully celebrated 30 Years of Excellence of the Meritorious School Network with great pride and enthusiasm. The campus was filled with excitement as students, teachers, admin staff, and domestic staff came together to mark this remarkable milestone. A cheerful cake-cutting ceremony was held, and students raised loud cheers in honour of the school's legacy and achievements.

The celebration was made even more special as teachers, students, and members of the management shared their cherished memories and heartfelt reflections about their journey at Meritorious. The school song echoed through the halls, filling everyone with a deep sense of belonging and pride. It was a day of joy, unity, and gratitude — a beautiful reminder of the strong foundation and bright future of Meritorious.

A Day of Fun and Discovery: Field Trip to Adventure Land

The students of MIS embarked on an unforgettable field trip to Adventure Land, a place where fun, excitement, and learning came together in the best way possible. It was a day packed with laughter, adventure, and endless energy as our young explorers enjoyed a range of thrilling activities specially designed for kids.

From the moment we arrived, the excitement was sky-high! The jumping area was a favorite for many — students bounced, flipped, and laughed their hearts out in a safe and colorful space that let their energy run free.

Another highlight of the trip was the mountain climbing zone, where little climbers took on the challenge with determination and courage. It was wonderful to see them cheer each other on, building both confidence and teamwork.

The fun didn't stop there! The constructional vehicle zone had students lining up to experience the thrill of riding and operating kid-friendly diggers, dump trucks, and cranes. With helmets on and big smiles, they became mini-engineers for the day, learning about machines through play.

The field trip was not only a break from routine but also a perfect blend of physical activity, learning, and fun. It gave students the chance to explore new challenges, bond with friends, and make memories that will last a lifetime.

Children's Day

At MIS, Children's Day was celebrated with joy, laughter, and lots of unforgettable moments — a day dedicated to the little stars who light up our campus every single day with their energy, curiosity, and innocence.

It was truly heartwarming to see the special bond shared between teachers and students, strengthened by such joyful moments.

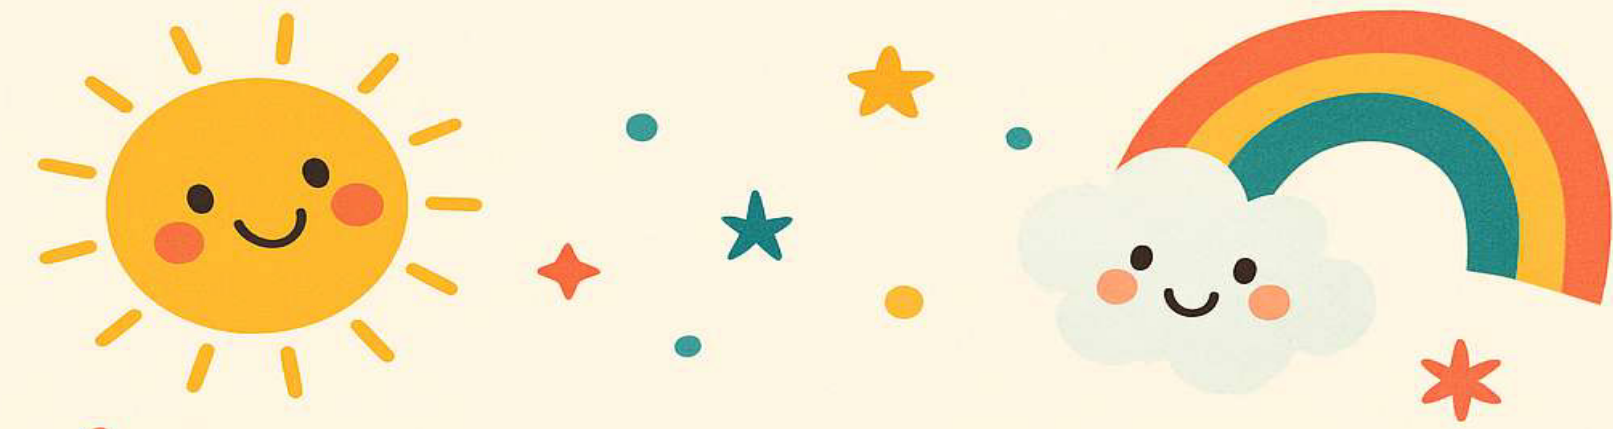

And just when the fun seemed to reach its peak, came the icing on the top — a treat of ice cream for every child! From classic vanilla to chocolate swirls and fruity flavors, the smiles grew even wider as students enjoyed their favorite cold treats in the warm sunshine.

The sight of happy faces, ice cream in hand, and hearts full of joy was the perfect ending to a truly special day.

At MIS, Children's Day is not just a celebration — it's a reminder that childhood is a beautiful journey, and every child deserves to feel loved, appreciated, and celebrated.

لطیفے

1- ایک صاحب نے ایک طوطا پال رکھا تھا۔ ایک دن وہ صاحب گھر پر نہیں تھے

کہ دودھ والا آگیا اس نے دروازہ کھٹکھٹایا اندر سے پھر آواز آئی "کون؟

"باہر سے اس نے پھر جواب دیا "دودھ والا" اور انتظار کرنے لگا کہ ابھی کوئی دروازہ کھول دے گا۔

آخر اس نے تنگ آکر کہاں بھائی صاحب میں تو باہر دودھ والا ہوں اندر آپ کون ہیں؟ اندر سے فوراً آواز آئی "دودھ والا۔

2- ٹیچر: تمہاری امی کا نام کیا ہے؟

بچہ: گوگل بانو

ٹیچر: یہ کیسا نام ہے؟

بچہ: میں جہاں بھی جاتا ہوں وہ مجھے ڈھونڈ لیتی ہیں۔

3- چھوٹا بھائی: بھائی آپ نے جو گلاب کا پودا لگایا تھا۔ اس کیا ابھی تک جڑ نہیں نکلی۔

بھائی: تمہیں کیسے پتا؟

چھوٹا بھائی: میں روز نکال کر دیکھتا ہوں۔

4-

ٹیچر: تم لیٹ کیوں آئے؟

بچہ: میرے پیسے گم ہو گئے تھے، اسے ڈھونڈ رہا تھا۔

ٹیچر دوسرے بچے سے: اور تم لیٹ کیوں آئے ہو؟

دوسرا بچہ: میں اس کے پیسوں پر پاؤں رکھ کر کھڑا ہوا تھا۔

ایک دوست نے دوسرے سے کہا: "میں بہت بہادر ہوں۔"

دوسرے دوست نے پوچھا: "کیا بہادری دکھائی آپ نے؟"

پہلے نے جواب دیا: "ایک مرتبہ سرکس ہو رہی تھی کہ ایک شیر پنجرہ توڑ کر باہر نکل آیا

سب لوگ ادھر ادھر بھاگ گئے لیکن میں شیر کے پنجرے میں بڑی بہادری سے چلا گیا۔"

دوسرے صاحب بڑے حیران ہو کر بولے: "کیا شیر نے آپ کو کچھ نہیں کہا؟"

"ارے، وہ کہتا بھی کیسے، میں نے اندر سے کنڈی جو لگا لی تھی۔"

زیرا

زیرا گھوڑے اور گدھے سے مشابہت رکھتا ہے۔ زیرے کی تین اقسام ہوتی ہیں۔ (1) میدانی زیرے (2) پہاڑی زیرے (3) گریوئز زیرے۔ میدانی زیرے براعظم افریقہ کے ملک تنزانیہ میں کثرت سے پائے جاتے ہیں۔ گر اس لینڈ میں بھی یہ کثرت پائے جاتے ہیں۔ یہ گھاس کے میدانوں میں رہتے ہیں اور گھاس کھاتے ہیں۔ ان کی سیاہ اور سفید دھاریاں انسانی فننگر پرنٹ کی طرح ایک دوسرے سے مختلف ہوتی ہیں۔ عام تصور تو یہ ہے کہ ان کا جسم سفید اور اس پر سیاہ دھاریاں ہیں جبکہ ماہرین کے مطابق ان کا جسم سفید نہیں بلکہ سیاہ ہے اور اس پر سفید دھاریاں ہیں جو کہ کیمو فلاگ کا کام کرتی ہیں۔

یہ دھاری دار جسم ان کو شکاری جانوروں سے بچنے میں مدد دیتا ہے۔ جب یہ جھنڈ کی شکل میں بھاگتے ہیں تو ایو جن کی طرح دیکھائی دیتے ہیں۔ مثلاً زیر اگر دائیں جانب بھاگ رہے ہوتے ہیں تو لگتا ہے کہ بائیں جانب بھاگ رہے ہیں اس طرح بچ کر بھاگنا آسان ہوتا ہے۔ اس طرح ویگن ویل موشن کا سیر اب پیدا ہوتا ہے مثلاً گاڑی کا تیز چلتا ہوا پہیہ یا پھر ہوائی جہاز کا تیز چلنے والا پنکھا جو غور سے دیکھو تو آہستہ یا الٹا چلتا ہوا دیکھائی دیتا ہے۔ شکاری جانوروں کی آنکھیں چند یا جانے کی وجہ سے زیرے آسانی سے بچ کر نکل جاتے ہیں۔

یہ اسلام آباد اور میانوالی کے پہاڑی سلسلوں میں پائے جاتے ہیں اور اکثر روڈ پر بھی نظر آتے ہیں تاہم ان کی نسل اس وقت شدید خطرے میں ہے اور نایاب ہوتی جا رہی ہے۔

مسفرہ طاہر (جماعت: ششم - بی)

آج کا کام کل پر مت رکھو

ایک دفعہ کا ذکر ہے کہ ایک گاؤں کا چودھری گھر کا سودا سلف لینے شہر آیا۔ اس نے دیکھا کہ ایک جگہ لوگوں کا بہت زیادہ رش لگا ہوا ہے۔ پتہ کرنے پر یہ معلوم ہوا کہ ایک وکیل ہے جو لوگوں کو سو سو روپے کی ایک بات بتاتا ہے اور ہزار ہزار کا نکتہ سمجھاتا ہے۔ چودھری نے دل میں کہا! ہم بھی چل کر اس کی کوئی بات سن لیں تو بہت اچھا ہو گا۔ یہ سوچ کہ وہ وکیل کے گھر پہنچا اور جا کر بولا۔ وکیل صاحب صاحب!! میں نے آپ کی باتوں کی بڑی تعریف سنی ہے۔ کوئی بات مجھے بھی سنا دیجئے۔ وکیل نے کہا اہم تو ایک بات کی فیس ایک اشرفی لیتے ہیں۔ یہ سن کر چودھری کا شوق اور بھی بڑھ گیا اور اپنی جیب سے پندرہ روپے نکال کر وکیل کے سامنے رکھ دیے۔ روپے لے کر وکیل نے ایک کاغذ کے ٹکڑے پر یہ جملہ لکھ دیا کہ "آج کا کام کل پر نہ رکھو"۔ چودھری جب شہر سے واپس آیا تو مزدوروں نے کھیت کاٹ کر بہت سارا غلہ نکال کر رکھا تھا۔ جب شام ہوئی تو مزدور چودھری سے اپنی مزدوری لینے آئے تو چودھری بولا، اس اناج کو پہلے گھر چھوڑ کر آؤ پھر تمہیں مزدوری ملے گی۔ مزدور نے کہا! اب تو کافی وقت گزر چکا ہے کل دن نکلتے ہی یہ کام کر دیں گے۔ دوسروں کے اناج بھی تو باہر ہی ہیں۔ چودھری بولا، بھائیو! میں نے آج ہی پندرہ روپے دے کر یہ بات سیکھی ہے۔ لہذا یہ کام آج ہی کرنا پڑے گا۔ آخر کار مزدوروں کو اناج گھر کے اندر رکھنا ہی پڑا۔ اتفاقی سے اسی رات اتنی زور کی بارش ہوئی کہ سارے گاؤں کا غلہ پانی میں بہہ کر خراب ہو گیا۔ اور جب اس نے غلہ بیچا تو اتنا نفع ہوا کہ ایک اشرفی کے بدلے بیسوں اشرفیاں وصول ہو گئیں۔

سائنس کے کمالات

سائنس انگریزی زبان کا لفظ ہے۔ جس کے معنی علم کے ہیں۔ لیکن اس سے مراد وہ علم ہے جو تجربات و مشاہدات کے ذریعے حاصل کیا جاتا ہے۔ ویسے تو سائنس نے بہت ساری ایجادات کی ہیں مگر اس کی سب سے بڑی ایجاد آرٹیفیشیل انٹیلیجنس (AI) ہے۔

یہ ایک اسی ایجاد ہے جس کے ذریعے انسان کی زندگی آسان ہو گئی ہے۔ ہر چیز روبوٹ کے ذریعے آسانی سے کی جاسکتی ہے۔ اس کی مدد سے ہم روز بروز کے کام آسانی سے کر لیتے ہیں جس سے ہمارے وقت کی بچت ہوتی ہے اور کام آسان ہو جاتا ہے۔

مہد رضا (جماعت: چہارم)

محاوروں کی زبان

ایک دن میں اپنے کمرے میں بیٹھا خیالی پلاؤ پکارتا تھا کہ اچانک دل نے کہا کہ کیا ہاتھ پہ ہاتھ دھرے بیٹھے ہو، کوئی ایسا کام کرو، جس سے چار لوگوں میں نام پیدا ہو جائے مجھے ایک دم خیال آیا کہ اگر ہماری کہانی بھی شائع ہو جائے تو ہماری شہرت کو چار چاند لگ جائیں گے۔ کیوں نہ ایسی تحریر لکھی جائے جس میں محاوروں کی بہتات ہو۔ چنانچہ اسی وقت کیل کانٹے سے لیس ہو کر بیٹھ گئے۔

جب سورج نیزے پر آچکا تو میں اپنی پرانی بیٹھک پر جا بیٹھا۔ راستے میں اپنے دوست جواد سے ملاقات ہو گئی۔ ہمارا مشترکہ دوست زین بھی آچکا۔ زین اور جواد کی باتوں باتوں میں کسی بات پر ٹھن گئی تو جواد نے اسے بے بھاؤ کی سنادیں۔ زین کا غصہ آسمان سے باتیں کرنے لگا اس نے جواد کو آڑے ہاتھوں لیا اور کہا کہ مجھ سے تین پانچ مت کرو، میں نے بھی کچی گولیاں نہیں کھیلی۔ ایسا سبق دوں گا کہ چھٹی کا دودھ یاد آجیگا۔

میں نے جواد سے کہا: "ایک ہی جگہ رہتے ہو۔ یہ تو تو میں میں، اچھے لوگوں کا شیوا نہیں۔ آخر سوچو تو سہی، تم لوگ آخر مستقبل کے معمار ہو۔" مگر جواد نے میری نصیحت کو ایک کان سے سنا اور دوسرے کان سے نکال دیا۔ زین بھی غصے سے پسو تاب کھارہا تھا جب معاملہ حد سے بڑھنے لگا تو میں آستینیں چڑھا کر بیچ میں کودا اور دونوں کو بے نقط سنائیں۔ وہ دونوں فوراً نو دو گیارہ ہو گئے اور میں نے سوچا یہ تو تین ٹکڑا کام بگاڑا ہو گیا۔ ہو۔ میرے تو پیٹ میں چوہے دوڑنے لگے۔ آؤ دیکھا نہ تاؤ فوراً گھر پہنچا۔ اپنی پیٹ کی آگ بجھائی اور تھکن کے باعث گھوڑے بیچ کر سو گیا۔

نوفل بن ذیشان (جماعت: ششم۔ بی)

نعت شریف: "نبیوں میں اعلیٰ"

نبیوں میں اعلیٰ رسولوں میں اعلیٰ
ہمارا نبی ﷺ ہے بڑی شان والا

نبیوں میں اعلیٰ رسولوں میں اعلیٰ
نبیوں میں اعلیٰ رسولوں میں اعلیٰ

ہمارے نبی ﷺ کی
ہے رب نے بنایا بڑی آن والا

رسولوں میں افضل نبیوں میں اعلیٰ
نہ آیا ہے کوئی نہ آدے

ہے رنگ و نسل کا فرق مٹایا
بنایا انھیں امن و ایمان والا

ہے پیار سکھایا ادب ہے سکھایا
جو انسان اک دوسرے کے دشمن

نہیں ان سے بڑھ کر محبت کسی سے
نبی ہے ہمارا قرآن والا

بہت پیار ہم کو ہے اپنے نبی ﷺ سے
ہمیں جان سے بڑھ کر کہیں محترم وہ

حبا منزل قادری (جماعت: ششم - اے)

سردی کا موسم

آگیا سردی کا موسم آگیا

اپنے ماتھے پر پسینا اب نہیں
آگئی ہے گرم کپڑوں کی بہار
آگیا سردی کا موسم آگیا
ریوڑیاں اور مونگ پھلی کھانے کے دن
نرخ چلغوزوں کے بھی چڑھنے لگے
آگیا سردی کا موسم آگیا

کوئی گرمی کا مہینا اب نہیں
چل رہی ہیں کیا ہوائیں خوش گوار
گرم کپڑوں میں بدن ہر آگیا
آگئے جسموں کو گرم کرنے کے دن
دام پھر بادام کے بڑھنے لگے
ہم کو اس مہنگائی کا غم کھا گیا

غلام مصطفیٰ (جماعت: پنجم - بی)

زندگی کے رنگ

زندگی ایک دریا ہے، بہتی گئی،
کبھی غم، کبھی خوشی
بچپن تھا خوابوں کا، ماں کا پیار،
باپ کا سایہ، دل کا سکون بار بار
پھر جوانی آئی، بدل گئے رنگ،
روشنی تھی کہیں، کہیں چھائے تھے سنگ
دنیا کی دوڑ میں کچھ کھو دیا،
یہ زندگی کے رنگ تھے، جو ہم نے پایا

آمنہ عمیر (جماعت: پنجم - ج)

حمد باری تعالیٰ

غیب و طاہر ہوں کہ نخریک و جمود
سب میں آتا ہے نظر تو معبود
نظم قدرت کے، کارِ فطرت کے
ہر اک اعجاز میں ہے تیری خود
تو ہی تو تھا ازل سے اے میرے رب!
باقی ہر شے تھی دنیا کی نابود
یوں تو ہے کعبہ گھر تیرا والی!
پر ہے دل کے گھر میں تو موجود
تیرے ہی عشق کے سحر کے طفیل
بجھ گئی یک دم آتش نمرود
تجھ کو دیتی ہے زیب بخشش ہی
کہ تیرے لطف کی نہیں ہمیں حدود
کر گناہوں کو معاف اے مولا!
ہیں خطائیں ہماری لا محدود۔

مصطفیٰ رضا (جماعت: چہارم - اے)

جاپان اور چین کے مستقبل کے منصوبے

چین ایسی اڑتی ہوئی گاڑیاں بنا رہا ہے جو پہلے سائنس فکشن میں نظر آتی تھیں، اب حقیقت میں بننے کے قریب ہیں۔ یہ گاڑیاں زمین پر چلنے کے ساتھ ساتھ ہوا میں اڑنے کی صلاحیت رکھتی ہیں۔ اُن کا مقصد ٹریفک کا خاتمہ اور سفر کے وقت کو کم کرنا ہے۔ یہ ماحولیاتی فوائد بھی فراہم کریں گی کیونکہ زیادہ تر بجلی سے چلیں گی۔

زہرا عمران (جماعت: ششم۔ بی)

جانور کے حقائق

پانڈا

- ☆ پانڈا کی 99٪ خوراک بانس پر مشتمل ہوتی ہے۔
- ☆ نوزائیدہ پانڈا کا وزن تقریباً 100 گرام ہوتا ہے۔
- ☆ اس کی سیاہ و سفید کھال اُسے چھپنے میں مدد دیتی ہے۔
- ☆ پانڈا کے جڑے بہت مضبوط ہوتے ہیں۔
- ☆ یہ موٹے لگتے ہیں، لیکن اصل میں طاقتور ہوتے ہیں۔
- ☆ دوسرے رینگھوں کے برعکس یہ سرمائی نیند نہیں لیتے۔
- ☆ ان کے بچے میں اضافی انگوٹھا ہوتا ہے جو بانس پکڑنے میں مدد دیتا ہے۔
- ☆ پانڈا عام طور پر تنہائی پسند ہوتے ہیں۔
- ☆ یہ بہترین تیراک ہوتے ہیں۔
- ☆ گرمیوں میں اونچائی پر اور سردیوں میں نچلے علاقوں میں رہتے ہیں۔
- ☆ جنگل میں ان کی عمر 15-20 سال اور قید میں 30 سال تک ہو سکتی ہے۔
- ☆ ایک دن میں 12 سے 38 کلو گرام بانس کھا سکتے ہیں۔
- ☆ مادہ پانڈا سال میں صرف ایک بار حاملہ ہو سکتی ہے۔
- ☆ بالغ پانڈا کے کوئی قدرتی دشمن نہیں ہوتے۔
- ☆ چین میں پانڈا کو قومی خزانہ سمجھا جاتا ہے۔

علی اوسط (جماعت: ششم۔ اے)

بریانی کی ترکیب

اجزاء:

چکن ایک کلو

چاول تین پاؤ

آلو آدھا کلو

ٹماٹر ایک پاؤ

پیاز دو عدد

ثابت گرم مصالحہ دو کھانے کے

آلو بخارے آٹھ عدد

نمک دو کھانے کے چمچ

پسی ہوئی لال مرچ ایک کھانے کا چمچ

ہلدی ایک کھانے کا چمچ

دھنیا ایک کھانے کا چمچ

پسا ہوا ادراک لہسن تین کھانے کے چمچ

ہر ادھنیہ تین کھانے کے چمچ

ہری مرچ 10 سے 12

پودینہ آدھا گڈی

برایانی ایسن آدھا کھانے کا چمچ

زر دے کارنگ ایک چوتھائی کھانے کا چمچ

شان برایانی مصالحہ تین کھانے کے چمچ

ترکیب:

سب سے پہلے پیاز لال کر کے اس میں ادراک لہسن، نمک، لال مرچ، دھنیا، ہلدی، ثابت گرم مصالحہ ڈال کر اس کو پکالیں پھر اس میں ٹماٹر ڈال دیں ٹماٹر کا پانی خشک ہونے لگے تو چکن اور آلو ڈال کر بھون لیں۔ تھوڑا پانی ڈالیں جب چکن اور آلو گل جائیں تو دہی ڈال کر بھون لیں۔ دہی بھون لیں تو اس میں ہری مرچ، ہر ادھنیہ، پودینہ، آلو بخارے اور شان برایانی مصالحہ ڈال کر مکسڈ کر لیں پھر اس میں ایک کپ پانی ڈال دیں۔ آٹھ ہلکی کر دیں پانچ منٹ تک پکائیں اس کے بعد ابلے ہوئے چاول کی تہ لگا کر برایانی ایسن اور زر دے کارنگ تھوڑے پانی میں گھو کر دم پر رکھ دیں 15 منٹ دم لگائیں مزید ار برایانی تیار ہے۔

عیان الیاس (جماعت: پنجم)

کہانی: آرام کی قدر

ایک بادشاہ غلام کے ساتھ کشتی میں بیٹھا تھا۔ غلام نے پہلے کبھی دریا نہیں دیکھا تھا اور کبھی کشتی پر بھی نہیں بیٹھا تھا۔ غلام ڈر سے رونا شروع ہو گیا۔ اُس کے رونے سے بادشاہ کو تکلیف ہوئی۔ اس کشتی میں ایک دانا بھی تھا۔ اس نے بادشاہ سے کہا، آپ حکم دیں تو میں اسے چپ کرادوں گا۔ بادشاہ نے اُسے چپ کرانے کی اجازت دی۔ اس دانا کے اشارے پر ملازموں نے غلام⁵ دریا میں پھینک دیا۔ جب وہ چند غوطے کھا چکا تو اس کے بالوں کو پکڑ کر کشتی کی طرف لے آئے۔ اس نے کشتی کو جلدی سے پ لیا۔ اور پھر کشتی کے ایک کونے میں دُک کر بیٹھ گیا۔

بادشاہ کو یہ تدبیر بہت پسند آئی۔ بادشاہ نے دانا سے پوچھا کہ اس میں کیا حکمت تھی؟ اس نے ایسا کیوں کیا؟
وانا نے کہا کہ غلام نے کبھی ڈوبنے کی تکلیف نہیں اٹھائی تھی اور کشتی کے آرام کو نہیں جانتا تھا۔ "آرام کی قدر وہی جان سکتا ہے جو مصیبت جھیل چکا ہو۔"

زیان سعد (جماعت: چہارم۔ بی)

اردو ہماری قومی زبان

کسی شاعر نے کیا خوب کہا ہے کہ!

لفظوں کا خراج اسکو زبانوں نے دیا ہے

ہے جس میں ہر اک پھول وہ گلزار ہے اردو

اردو ہماری قومی زبان دُنیا کی وہ واحد زبان ہے جس میں دیگر زبانوں کے الفاظ پائے جاتے ہیں۔ جس میں عربی، سرائیکی، سنسکرت اور فارسی شامل ہیں۔ اردو زبان ایک جامع اور خوبصورت زبان ہے۔ اردو زبان میں مایہ ناز شعراء کرام کا ذکر آتا ہے۔ جس میں علامہ اقبال، فیض احمد فیض، حفیظ جالندھری اور غالب کے نام قابل توصیف ہیں۔ ہمارے ملک پاکستان کا قومی ترانہ اردو زبان میں تحریر کیا گیا ہے۔ جس کے شاعر حفیظ جالندھری ہیں۔ اردو زبان کی ادائیگی محاس اور محبت سے بھرپور ہے۔ حرف آخر اس شعر پر کرنا چاہتا ہوں کہ:

اردو ہے جس کا نام ہم ہی جانتے ہیں داغ

سارے جہاں میں دھوم ہماری زبان کی ہے

مصطفیٰ رضا (جماعت: چہارم۔ اے)

نگٹس کی ترکیب

اجزاء:

چکن ڈھائی سو گرام
سلائس ڈبل روٹی دو عدد
سویا سوس دو ٹیبل سپون
چلی سوس دو ٹیبل سپون
سرکہ دو ٹیبل سپون
نمک حسب ذائقہ
ادرک لہن کا پیسٹ ایک ٹیبل سپون
انڈے 2 عدد
ڈبل روٹی کا چورا حسب ضرورت

ترکیب:

مشین میں چکن اور ساری چیزیں ڈال کر پیس لیں جب پس جائے تو اس کو ایک پیالے میں نکال لیں اور اس کو اپنی پسند کی مختلف
شی دپیچے کر پھر نگٹس کو انڈے اور ڈبل روٹی کا چورا لگا کر ڈیپ فرائی کر لیں اور گولڈن براؤن ہونے تک پکائیں پھر
پیپر پر نکال لیں اور کیچپ کے ساتھ مزے سے کھائیں۔

زویا سمیر (جماعت: چہارم)

آلودگی

آلودگی سے مراد وہ مضر مادے ہیں جو فضا، پانی اور زمین کو نقصان پہنچاتے ہیں۔ یہ فیکٹریوں کے دھوئیں، گاڑیوں کے اخراج، کیمیکل کے استعمال، اور پلاسٹک کے کچرے کی وجہ سے بڑھتی ہے۔

آلودگی کے اثرات

انسانوں پر اثرات
سانس کی بیماریاں (دمہ، برونکائٹس)
آنکھوں اور جلد کی الرجی
پانی اور خوراک کی آلودگی سے بیماریاں
دماغی دباؤ اور نیند کے مسائل
قدرتی ماحول پر اثرات
درختوں اور جنگلات کی تباہی
پانی کی آلودگی سے آبی حیات کو خطرہ
زمین کی زرخیزی میں کمی
گلوبل وارمنگ اور موسمیاتی تبدیلیاں

آلودگی کے حل

درخت لگائیں تاکہ ہوا صاف ہو۔
شمسی اور ہوا کی توانائی اپنائیں تاکہ دھوئیں اور کیمیکل کا اخراج کم ہو۔
ری سائیکلنگ اور پلاسٹک کا کم سے کم استعمال کریں۔
کچرے کو مناسب طریقے سے ٹھکانے لگائیں اور پانی کو آلودہ ہونے سے بچائیں۔
عوامی آگاہی بڑھائیں تاکہ لوگ ذمہ داری سے ماحول کا خیال رکھیں۔

اگر ہم مل کر ان اقدامات پر عمل کریں، تو آلودگی پر قابو پایا جاسکتا ہے اور ہماری زمین ایک صحت مند اور محفوظ جگہ بن سکتی ہے۔
عمر (جماعت: ششم - اے)

چکن چاؤ من کی ترکیب

اجزاء:

چکن، ڈھائی سو گرام باریک کٹا ہوا

نوڈلز، ایک پیکیٹ

بند گو بھی باریک کٹی ہوئی ایک کپ

گاجر باریک کٹی ہوئی ایک کپ

شملہ مرچ باریک کٹی ہوئی ایک کپ

ہری پیاز باریک کٹی ہوئی دو عدد

سویا سوس دو کھانے کے چمچ

چلی سوس ایک کھانے کا چمچ

سرکہ ایک کھانے کا چمچ

نمک حسب ذائقہ

کالی مرچ پسی ہوئی ایک کھانے کا چمچ

سفید مرچ پسی ہوئی ایک کھانے کا چمچ

ادرک لہسن کا پیسٹ ایک کھانے کا چمچ

تیل تین کھانے کے چمچ

ترکیب:

ایک کڑھائی میں تیل گرم کریں اور اس میں ادرک لہسن کا پیسٹ ڈال کر بھونیں پھر پھر اس میں تمام سبزیاں ڈالیں اس کو دو

منٹ کے لیے بھونیں پھر تمام مصالحے ڈال کر ابلے ہوئے نوڈلز شامل کریں اور اچھی طرح مکس کریں مزید ار چکن چاول تیار

ہے۔

معائنہ (جماعت: چہارم)

وائٹ سوس پاستہ کی ترکیب

وائٹ ساس اجزاء:

مکھن ڈھائی سو گرام

لہسن پیسٹ ایک کھانے کا چمچ

دودھ دو لیٹر

میدہ دو کھانے کے چمچے

مکس ہرب ایک کھانے کا چمچ

چیز 100 گرام

کریم 100 گرام

ترکیب:

ایک پین میں مکھن ڈال کے اس میں لہسن فرائی کریں ساتھ میدہ شامل کر کے اچھی طرح مکس کریں اس کے بعد دودھ شامل کر کے اس میں ابال آنے تک اسے پکائیں اور ہلاتے رہیں اس کے بعد اس میں نمک کالی مرچ کٹی ہوئی لالچ مکس ہرب کریم اور چیز شامل کر کے پانچ منٹ تک پکائیں۔

جب آپ کی وائٹ سوس تیار ہو جائے تو اب اس تیار شدہ وائٹ ساس میں میرینیٹ چکن اور پاستہ شامل کریں اب اپ کا وائٹ ساس واسطہ تیار ہے۔

عشال طاہر (جماعت: پنجم)

تبصرہ بر کتاب "صریر خامہ"

صریر خامہ "جماعت ششم کے لیے ترتیب دی گئی ایک نصابی کتاب ہے، جو محض الفاظ کا مجموعہ نہیں بلکہ ایک ایسی دنیا ہے" جہاں کہانیاں زندہ ہوتی ہیں، نظمیں گنگناتی ہیں اور مکالمے حقیقت کا عکس دکھاتے ہیں۔ یہ کتاب طلبہ کو اردو زبان کی خوبصورتی سے روشناس کرانے کے ساتھ ساتھ ان کے ذہن میں تخلیقی سوچ کے دروازے بھی کھولتی ہے۔

کتاب میں شامل کہانیاں دل چسپ اور سبق آموز ہیں، جو نہ صرف بچوں کو محفوظ کرتی ہیں بلکہ ان کے اخلاقی معیار کو بھی بلند کرتی ہیں۔ نظمیں روانی اور سادگی کے ساتھ ساتھ ایک مخصوص کشش رکھتی ہیں، جو بچوں کے دل و دماغ میں اتر جاتی ہیں۔ مکالمے بچوں کو روزمرہ زندگی میں اظہار خیال کا سلیقہ سکھاتے ہیں، جبکہ مضامین معلوماتی اور سوچنے پر مجبور کرنے والے ہیں۔ یہ کتاب روایتی نصابی کتابوں سے ہٹ کر کچھ نیا پیش کرتی ہے۔ ہر سبق کے آخر میں دی گئی مشقیں محض رٹے لگانے کے بجائے طلبہ کی ذہنی صلاحیتوں کو حلاً بخشی ہیں اور انہیں سوالات کے جوابات اپنی سوچ کے مطابق ترتیب دینے پر اکساتی ہیں۔

مجموعی طور پر "صریر خامہ" ایک ایسی کتاب ہے جو پڑھنے والے کو بوریٹ سے بچاتی ہے اور ادب کی خوبصورتی سے روشناس کراتی ہے۔ یہ کتاب صرف زبان سکھانے کا ذریعہ نہیں بلکہ ایک ایسا سفری نقشہ ہے جو بچوں کو ایک دل چسپ، تخلیقی اور پُر مغز ادبی دنیا میں لے جاتا ہے۔

قلم کی آپ بیتی

میرا نام قلم ہے۔ میں ایک چھوٹا سا، مگر بہت طاقتور وجود رکھتا ہوں۔ میری ابتدا ایک چھوٹے سے کارخانے میں ہوئی، جہاں مجھے دھات، پلاسٹک اور سیاہی سے بنایا گیا۔ جب میں مکمل ہوا تو میری نئی زندگی کا آغاز ہوا۔

میرا پہلا سفر ایک دکان میں تھا، جہاں مجھے سے دوسرے قلموں کے ساتھ رکھا گیا۔ کئی لوگ آئے اور مجھے ہاتھ میں لے کر آزمایا، مگر آخر کار ایک علم دوست شخص نے مجھے خرید لیا۔ اس لمحے مجھے محسوس ہوا کہ میری اصل پہچان اب شروع ہو رہی ہے۔

جب میرے مالک نے ہاتھ میں لے کر پہلی بار کاغذ پر چلایا تو میں نے الفاظ کی صورت میں اپنی طاقت کا مظاہرہ کیا۔ میں نے مختلف کہانیاں، نظمیں، مضامین اور خطوط لکھنے میں مدد دی۔ بعض اوقات میں امتحانوں کے جوابات لکھنے میں مددگار ثابت ہوا، تو کبھی کسی کی محبت بھری تحریر کا ذریعہ بنا۔ میں نے خوشی کے لمحے بھی دیکھے اور غم کے آنسوؤں سے بھی گزرا۔

میری سیاہی رفتہ رفتہ ختم ہونے لگی۔ ایک دن، میرا مالک مجھے ہاتھ میں لیے سوچ میں ڈوب گیا۔ پھر اس نے مجھے ایک دراز میں رکھ دیا۔ وہاں میں کئی دن گزارا، یہاں تک کہ میری جگہ ایک نیا قلم آ گیا۔ میں جانتا تھا کہ میرا وقت اب مکمل ہو چکا ہے۔ میری زندگی مختصر تھی، مگر با مقصد تھی۔ میں نے علم پھیلا یا، جذبات کا اظہار کیا، اور خیالات کو الفاظ کی شکل میں ڈھالا۔ میرا سفر ختم ضرور ہوا، مگر میری لکھی ہوئی تحریریں ہمیشہ باقی رہیں گی۔ یہی میری اصل کامیابی ہے۔

یہ تحریر کیسی لگی؟ اگر کچھ ترمیم یا بہتری چاہیے تو بتائیں!

کشتونی منوہر (جماعت: پنجم - اے)

"ایک گدھے کی آپ بیتی"

میرا نام گدھا ہے، اور میری زندگی ہمیشہ مشقت سے بھری رہی۔ میں ایک گاؤں میں پیدا ہوا، جہاں ہری بھری گھاس مجھے اپنی طرف بلاتی تھی، مگر میں کبھی آزاد نہ ہو سکا۔ جب میں چھوٹا تھا، تو میری ماں میرے ساتھ تھی، اور وہ دن میرے لیے بہت خوشگوار تھے۔ لیکن جیسے ہی میں بڑا ہوا، مجھے ایک ظالم مالک کے حوالے کر دیا گیا۔

میرا مالک مجھ سے بہت سختی سے پیش آتا تھا۔ صبح سویرے ہی میری پیٹھ پر بھاری بھر کم سامان لا دیا جاتا تھا اور مجھے بازار لے جایا جاتا تھا۔ دن بھر میں دھوپ میں چلتا رہتا، میری ٹانگیں درد سے کانپنے لگتیں، مگر مجھے رکنے کی اجازت نہ تھی۔ اگر کبھی میں تھوڑی دیر کے لیے رک جاتا، تو مجھ پر کوڑوں کی بارش کر دی جاتی۔ میں بے بس تھا، نہ کچھ کہہ سکتا تھا اور نہ کہیں جاسکتا تھا۔

مجھے وقت پر کھانے کو نہیں دیا جاتا تھا، نہ پانی ملتا تھا۔ سخت گرمی میں میری زبان پیاس سے خشک ہو جاتی، مگر میرے مالک کو اس کی کوئی پرواہ نہ ہوتی۔ اگر میں تھکن کے مارے گر بھی جاتا، تو وہ مجھے زبردستی اٹھاتا اور مزید بوجھ ڈال دیتا۔ آرام کرنا تو جیسے میرے نصیب میں ہی نہیں تھا۔ میری پیٹھ ہمیشہ زخموں سے بھری رہتی، اور میں ہر دن مزید کمزور ہوتا جا رہا تھا۔

رات کو میں آسمان کی طرف دیکھ کر سوچتا تھا کہ کیا کبھی ایسا دن آئے گا جب انسان ہم جانوروں پر رحم کریں گے؟ میں نے ہر دن امید کی، مگر میری حالت کبھی نہ بدلی۔ میں ان تمام انسانوں سے گزارش کرتا ہوں کہ جانور بھی جاندار ہوتے ہیں، انہیں بھی درد محسوس ہوتا ہے۔ ہم بھی کھانے، پانی، آرام اور محبت کے مستحق ہیں۔ اگر انسان ہمیں استعمال کرتے ہیں، تو کم از کم ہمارے حقوق کا خیال تو رکھیں۔

"ہم جانوروں پر ظلم نہ کریں، ہمارا بھی خیال رکھیں، کیونکہ ہم بھی اللہ کی مخلوق ہیں۔"

محمد ریان (جماعت: پنجم - سی)

محفل ذکرِ رسول ﷺ

• ستمبر کے مہینے میں ہمارے اسکول میں ایک نہایت روح پرور اور ایمان افروز محفل محفل ذکرِ رسول ﷺ منعقد کی گئی، جس نے سب کے دلوں میں محبتِ رسول ﷺ کو مزید تازہ کر دیا۔ اس بابرکت محفل کا اہتمام اسکول انتظامیہ کی جانب سے کیا گیا تھا، جبکہ اس کی میزبانی محترمہ مدیحہ اور محترمہ مہرین نے نہایت خوبصورتی اور عقیدت کے ساتھ انجام دی۔

• تقریب کے آغاز میں تمام ماؤں کا استقبال روح افزا سے کیا گیا جو مہمانوں کے لیے تازگی اور محبت کا اظہار تھا ایک اور دلکش پہلو یہ تھا کہ ہر کلاس کے بچوں نے الگ الگ رنگ کے دوپٹے پہن رکھے تھے جو محفل میں رنگوں کی خوبصورت قوس و قزح بکھیر رہے تھے اور محفل کے روحانی حسن کو مزید نکھار رہے تھے۔

اس کے بعد درود شریف کا سلسلہ شروع ہوا جو ایک نہایت پرسکون اور ایمان افروز منظر پیش کر رہا تھا محترمہ زہرہ اور محترمہ نجف کی رہنمائی میں بچوں نے اجتماعی طور پر درود پاک پڑھا جس کی گونج سے فضا معطر ہو گئی۔

• درود شریف کے بعد ہر کلاس نے عقیدت و محبت سے سرشار ہو کر نعتیں پیش کیں بچوں کی میٹھی آوازوں میں نعتیں سن کر سامعین پر ایک عجیب سا روحانی سماں طاری ہو گیا خاص طور پر محترمہ مہر کی نعت نے محفل کو ایک نئے جذبے اور والہانہ محبت سے بھر دیا ان کی آواز میں وہ سوز اور عقیدت تھی کہ ہر سننے والا عشقِ رسول ﷺ میں ڈوب گیا۔

محفل کے اختتام پر اسکول انتظامیہ کی جانب سے تمام ماؤں کو مٹھائی پیش کی گئی جو اس بابرکت تقریب کی مٹھاس کو اور بڑھا رہی تھی۔

• ہم تہہ دل سے اسکول انتظامیہ اور محترمہ اساتذہ کا شکریہ ادا کرتے ہیں جنہوں نے اتنی خوبصورت اور روحانی محفل کا اہتمام کیا ایسی تقریبات نہ صرف ہمارے ایمان کو مضبوط کرتی ہیں بلکہ طلبہ میں عشقِ مصطفیٰ ﷺ کا جذبہ بھی پیدا کرتی ہیں دعا ہے کہ اللہ تعالیٰ ہمیں ایسی بابرکت محافل میں بار بار شرکت کی سعادت عطا فرمائے۔ آمین

عنایہ شاہد (جماعت: ششم-اے)

جاپان اور چین کے مستقبل کے منصوبے

چین ایسی اڑتی ہوئی گاڑیاں بنا رہا ہے جو پہلے سائنس فکشن میں نظر آتی تھیں، اب حقیقت میں بننے کے قریب ہیں۔ یہ گاڑیاں زمین پر چلنے کے ساتھ ساتھ ہوا میں اڑنے کی صلاحیت رکھتی ہیں۔ اُن کا مقصد ٹریفک کا خاتمہ اور سفر کے وقت کو کم کرنا ہے۔ یہ ماحولیاتی فوائد بھی فراہم کریں گی کیونکہ زیادہ تر بجلی سے چلیں گی۔

زہرا عمران (جماعت: ششم-بی)

جانور کے حقائق

پانڈا

- ☆ پانڈا کی 99٪ خوراک بانس پر مشتمل ہوتی ہے۔
- ☆ نوزائیدہ پانڈا کا وزن تقریباً 100 گرام ہوتا ہے۔
- ☆ اس کی سیاہ و سفید کھال اُسے چھپنے میں مدد دیتی ہے۔
- ☆ پانڈا کے جڑے بہت مضبوط ہوتے ہیں۔
- ☆ یہ موٹے لگتے ہیں، لیکن اصل میں طاقتور ہوتے ہیں۔
- ☆ دوسرے ریچھوں کے برعکس یہ سرمائی نیند نہیں لیتے۔
- ☆ ان کے بچے میں اضافی انگوٹھا ہوتا ہے جو بانس پکڑنے میں مدد دیتا ہے۔
- ☆ پانڈا عام طور پر تنہائی پسند ہوتے ہیں۔
- ☆ یہ بہترین تیراک ہوتے ہیں۔
- ☆ گرمیوں میں اونچائی پر اور سردیوں میں چلے علاقوں میں رہتے ہیں۔
- ☆ جنگل میں ان کی عمر 15-20 سال اور قید میں 30 سال تک ہو سکتی ہے۔
- ☆ ایک دن میں 12 سے 38 کلوگرام بانس کھا سکتے ہیں۔
- ☆ مادہ پانڈا سال میں صرف ایک بار حاملہ ہو سکتی ہے۔
- ☆ بالغ پانڈا کے کوئی قدرتی دشمن نہیں ہوتے۔
- ☆ چین میں پانڈا کو قومی خزانہ سمجھا جاتا ہے۔

علی اوسط (جماعت: ششم-اے)

متوازن غذا

کھانا جب تم کھاؤ بچوں
بات نہ یہ تم بھلاؤ بچوں

رب نے دی ہے تم کو صحت
تم پر لازم اس کی حفاظت

نہیں ہے کافی مرغی مچھلی
دال بھی کھاؤ اور سبزی بھی

ہر سبزی کی اپنی لذت
دالوں میں ہے کتنی طاقت

ہر کھانے کا اپنا مزہ ہے
یہ وہ جانے جس نے چکھا ہے

گوشت سبزی اور دالیں لاؤ
تھوڑا تھوڑا سب کھاؤ بچوں

پہیلیاں

- (1) وہ کیا ہے جو ہم صبح کر سکتے ہیں شام کو نہیں؟
- (2) وہ کون سی چیز ہے جسے فرج میں بھی رکھ دو تب بھی گرم ہی رہتی ہے؟
- (3) وہ کون سی چیز ہے جو ہم کھانے کے لیے خریدتے ہیں مگر کھاتے نہیں ہیں؟
- (4) ایسی کون سی چیز ہے جو ہمیشہ اوپر جاتی رہتی ہے؟
- (5) وہ کون سی جگہ ہے جہاں 11 میں 2 جمع کریں تو جواب ایک آتا ہے؟
- (6) نہ رکشہ ہے نہ گاڑی ہے
نہ پتی ہے نہ کھاتی ہے
گھر بیٹھے وہ لے جاتی ہے
دنیا کی سیر کرواتی ہے

جواب

- (1) ناشتہ
- (2) گرم مصالحہ
- (3) چچ
- (4) عمر
- (5) گھڑی
- (6) کتاب

معلومات عامہ

- (1) شتر مرغ کی آنکھ اس کے دماغ سے بڑی ہوتی ہے۔
- (2) جاپان میں ایک جزیرہ ایسا بھی ہے جہاں صرف خرگوش رہتے ہیں۔
- (3) ہماری زبان میں تقریباً آٹھ ہزار ذائقہ چکھنے والے چھوٹے چھوٹے خلیے ہوتے ہیں۔
- (4) تتلی کا خون شفاف یا سبز رنگ کا ہوتا ہے۔
- (5) سورج اتنا بڑا ہے کہ زمین اس میں تیرہ لاکھ بار سما سکتی ہے۔
- (6) دنیا میں سب سے زیادہ استعمال ہونے والا لفظ OK ہے۔
- (6) ایک پینسل سے تقریباً 45000 الفاظ لکھے جاسکتے ہیں۔

SCHOOL SONG

*I PLEDGE TO TREASURE MERITORIOUS,
AS A PLACE TO LEARN AND GROW.*

*I'LL PROVE TO BE A TRUE MERITORIAN,
BY BEING HONEST AND FAIR TO ALL I KNOW,
TO SHOW RESPECT, BE KIND AND MEEK,
TO BE RESPONSIBLE AND WORK HARD EACH DAY OF THE WEEK,
TO STRIVE TO BE THE BEST I CAN BE,
SO ALL CAN SUCCEED IN OUR SCHOOL FAMILY*

*I PLEDGE TO TREASURE MERITORIOUS,
AS A PLACE TO LEARN AND GROW*

*EVERY DAY IS A NEW DAY!
I WILL ACT IN A SAFE AND HEALTHY WAY,
THE RIGHTS OF OTHERS I WILL RESPECT,
ALL PROPERTY I WILL PROTECT,
FOR MY LEARNING, I WILL TAKE RESPONSIBILITY,
EVERY DAY I WILL DO THE BEST AND SHOW ABILITY*

*I PLEDGE TO TREASURE MERITORIOUS,
AS A PLACE TO LEARN AND GROW.*

*EACH SCHOOL DAY, ON OUR WAY HERE,
WE ARE GLAD BECAUSE WE ARE SURE,
WHEN WE GO HOME TODAY,
WE WILL KNOW MORE THAN WE DID YESTERDAY.*

*WE PLEDGE TO TREASURE MERITORIOUS,
AS A PLACE TO LEARN AND GROW*
